

Session 2

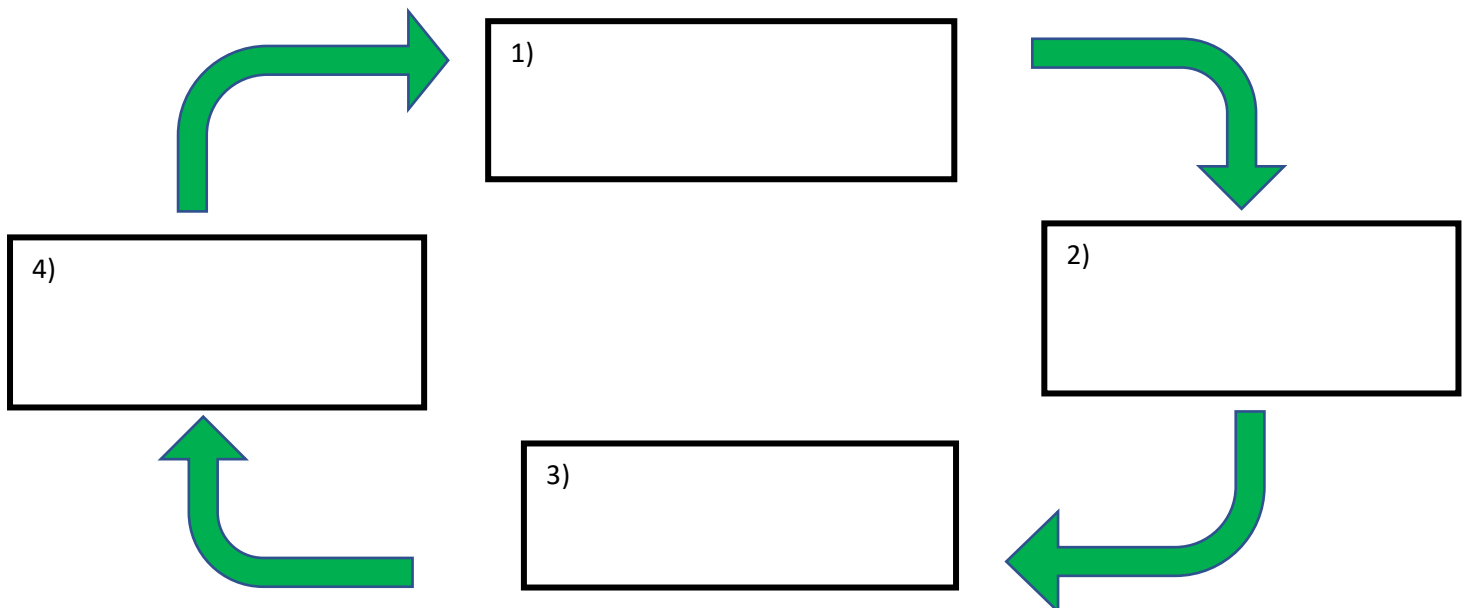

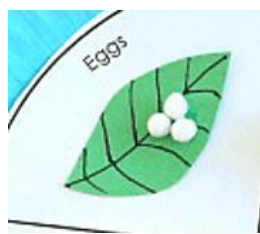

Butterflies

Watch the Butterfly video again if you need to. Then answer these questions about butterflies.

1) What is so special about butterfly wings?

2) To become a butterfly, it goes through different stages, this is called its **life-cycle** or life journey.

The order of the butterfly **life-cycle** is jumbled up. Put the different stages in the correct order in the numbered boxes.

Session 2

3) What type of weather do butterflies fly in?

4) What do butterflies like to drink?

5) How many wings do butterflies have?

6) What do caterpillars eat?

Here is a picture of a butterfly to colour in. Remember to use the same colour pattern for each wing!
