

Research

You are going to be writing your own fact sheet about butterflies next week.

What more information can you find out about butterflies?

Can you find out at least three more facts?

Here are some facts you could find out about!

- What type of places do butterflies like to live?
- How long can butterflies live for?
- What animals like to eat butterflies? (These are called their predators).
- Where do butterflies sleep?

Here are some websites that can help you find more information.
