

Session 2

Making a Birds eye view plan

We can take birds-eye view pictures of many things.

What do you think these are?

Here they are from a side view.

Some of the objects look very different.

Task :

Find three objects from around your home and draw them from a birds eye view.

See if anyone can guess what they are!

Remember to look at them from above!

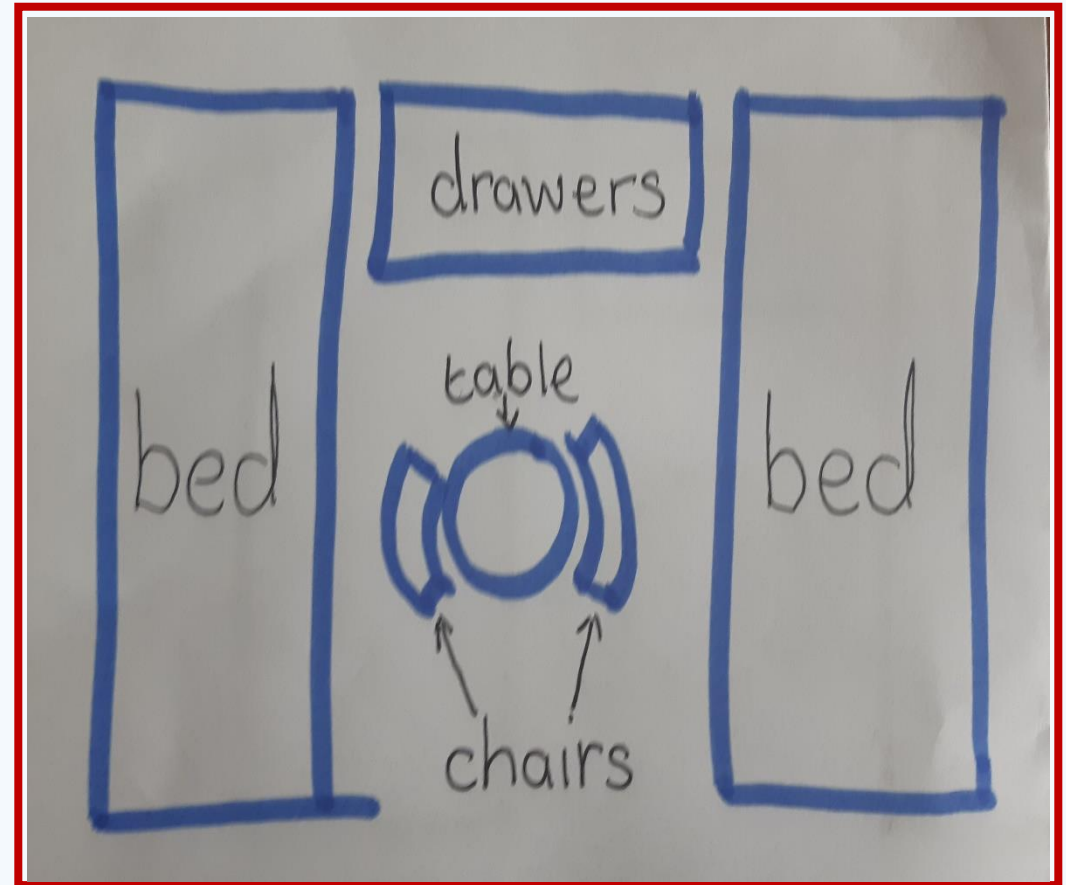

Drawing your plan

- Today you are going to make a birds eye view plan of a room in your house.
- You need to think of what it looks like from above.
- Also what are the main bits of furniture.
- What furniture can you see here?

Drawing your plan

My plan of the bedroom

Your turn

- *Now you're going to draw your own birds-eye view plan of a room in your home.*
- *Think about the shape of the furniture.*
- *Think about where the furniture would go.*
- *Remember to label the furniture.*
- *Write the name of the room as a heading.*
