Lighthouse Story Map

The story map consists of six empty rounded rectangular boxes arranged in two rows of three. Blue arrows indicate a sequence: from the first box in the top row to the second, then to the third, then down to the first box in the bottom row, then to the second, and finally to the third. To the right of the boxes is a detailed illustration of a lighthouse with red and white stripes, a small white building at its base, and a set of stairs leading up. Two seagulls are flying in the sky above the lighthouse.
