

## Year 3 Transition Task: A Reflection Scroll.

Welcome Year 3, to your first piece of work as Year 3 student!

Using the template provided you will write scroll letters to your future selves, we want you to include information about **who** you are at **this** point, things that are **going on in our lives right now** and your **likes/dislikes**. We also want you to include **hopes and wishes for the year ahead** and also include **two predictions (one personal and one worldly)** for what will happen from September 2020- July 2021.

In September we can display these scrolls with a class photo and a newspaper front cover for that day. At the end of the year we will look back on these and reflect on all of our achievements and how much the world has changed over the year.
