

## Y3 Week 10 French

### Quelle est la date aujourd'hui? (What is the date today?)

1/ In the past few weeks, you learnt days of the weeks, months of the year and numbers up to 31. That means now you will be able to say the date in French! 😊  
Please watch this video, it is all well-explained, listen carefully to the pronunciation as you need to practise saying the date! Next year, you will need to say the date in French and also write it in each French lesson (no more in English!)\* So make sure you practise now! 😊

<https://www.bbc.co.uk/bitesize/topics/zjx947h/articles/zhryxyc>

2/ Go through the powerpoint and revise days, months and numbers. Listen carefully to the pronunciation of the different dates in French (click on "slide show" in the menu and then "from beginning"). Remember if you need to listen again how to say days, months and numbers in French, you can always go back to the previous weeks.

3/ Practise saying and writing the date in French every day this week! 😊

Remember if you wish to send me your work, you can send it to this email below.
