Roman Soldier

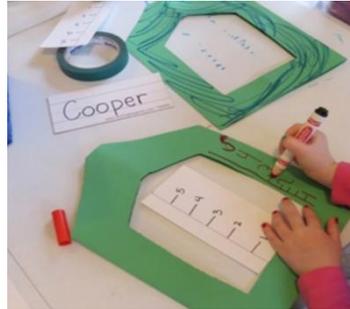

SCIENCE

Make a mini greenhouse.

You will need:

Beans or any other seeds
plastic sandwich bag
paper towel
sticky tape
scissors
pen
card/ card box

1. Make a greenhouse out of card. Make sure it fits the size of your bag.

2. Wet and roll the paper towel

3. Place the paper towel and the beans in a plastic bag. Make sure you can see the seed.

4. Seal the bag and tape the bag to the inside of your greenhouse.

5. Hang your greenhouse to the window. Check it every day and record your observations.

Things to observe:

When did the coat cracked? When did the root came out? When did the leaf showed up? How long did it take to grow 1 cm? What happened to the water?

Once the plant is too big for the greenhouse you can plant it into a pot and watch it grow.

What is a family?

Who is in your family?

Why is your family special?

Draw the best memory with your family
