

## Y5 Week 7 French

### Describe the weather

1/ New topic: The weather!

Quel temps fait-il? (What is the weather like?)

Follow each slide of the powerpoint and listen at the same time to the MP3 file for the pronunciation of each weather phrase in French. Repeat the powerpoint two or three times as there are 12 weather phrases to know eventually. I am not expecting you to memorise all these phrases in one go (but half of them!), we will work on this for the next few weeks. So don't worry! I always say do your best that is all I am asking! 😊

2/ Make a fortune teller about the weather phrases in French by following the instructions. (see folder called "Fortune teller")

Play it with members of your family making sure you are counting in French and say the weather phrase in French!

3/ Practise these sentences by saying one **every day** to a member of your family what is the weather like today in French! 😊

For example, **Aujourd'hui** (today) **il y a du vent**.

If you start to feel comfortable you can say a longer sentence by putting two weather phrases together. For example: **Aujourd'hui, il y a du soleil et il fait chaud**.

Make sure you say a sentence every day, a very good way to memorise them!

Enjoy your French and stay safe!
