

## Y6 Week 7 French

### Opinions et matières (School subjects)

1/ Take a look at the timetable you worked on last week (week 6) and talk about it by asking and answering questions in French. For example: A quelle heure c'est le français? A 11.35 (à onze heures trente-cinq). If unsure see more examples from week 6. You can also use the timetable on the powerpoint.

2/ Revise school subjects if necessary by following the powerpoint (Opinions and school subjects). Revise opinions although you should know them really well now! 😊  
Then answer to these questions:

Quelle matière aimes-tu? (which school subject do you like?)

Quelle matière n'aimes-tu pas? (which school subject don't you like?)

Quelle matière préfères-tu? (which school subject do you prefer?)

Some examples of answers:

J'aime l'anglais.

J'aime le français **et** la musique.

**Je préfère** l'éducation physique et sportive. (**I prefer** PE.)

J'aime l'histoire **et** les sciences **aussi** le dessin.

Je n'aime pas la religion.

J'adore l'informatique **mais** je déteste la géographie.

**Remember that you must use the determinants in front of the school subjects!  
I explained in details in week 6 if unsure.**

If you still struggle a little with the pronunciation of some words you can watch this video (see link underneath). It is a little bit challenging as she is adding sentences that we have not seen but it is still really worth it to watch! Also don't worry about the extra school subjects, you don't need to know them for now but you can learn them if you want to! 😊

<https://www.youtube.com/watch?v=jtoXzwwp2qw>

Continue to follow the powerpoint and **say the sentences on each slide in French** where you see the pictures of happy/unhappy faces and school subjects!

3/ Write down five sentences. Please make your own ones and remember using conjunctions!

We will work more on that the following week by extending these sentences.

Most of you should know what is coming! 😊

Stay safe,

Mademoiselle Dardenne  
French Teacher
