

Games to play with the digit boards

All you need are 0-9 dice, counters and the number boards and you are ready to practice all kinds of number skills with your children!

In each of these games, cover the appropriate number with a counter and see if you can get 4 counters in a row in any direction to beat your opponent!

Digit board

Roll the dice and cover the number that is one more

Roll the dice and cover the number that is one less

Roll the dice and find that number on the board and cover it

Roll the dice and cover the number bond to 10 (e.g. $6+4$, $7+3$, $8+2$)

Roll two dice and subtract the smaller number from the bigger, cover the answer

Roll the dice and cover the double

Hundred Square

Roll two dice to make a two digit number and cover it

Roll two dice twice and add the numbers together - cover the answer

Teens board

Roll the dice and cover the number bond to 20 ($17+3$, $16+4$, $12+8$)

Roll the dice and add 10, then cover the teen number it makes

Roll the dice and cover the double

Have fun! ☺
