Table of Contents

1) **Figure S1.** (a) HRTEM image and (b) Raman spectrum of graphene grown onto nickel foams.

2) **Figure S2.** (a) SEM image of the graphene/nickel hybrid foams at 2000×magnifications; EDS mapping images showing distribution of (b) carbon and (c) nickel atoms.

3) **Figure S3.** XPS survey scan spectrum of graphene/nickel hybrid foams.

4) **Figure S4.** SEM images of graphene/nickel hybrid foams before (a-b) and after (c-e) dynamic mechanical measurements at different magnifications.
Figure S1. (a) HRTEM image and (b) Raman spectrum of graphene grown onto nickel foams.
Figure S2. (a) SEM image of the graphene/nickel hybrid foams at 2000 × magnifications; EDS mapping images showing distribution of (b) carbon and (c) nickel atoms.
Figure S3. XPS survey scan spectrum of graphene/nickel hybrid foams.
Figure S4. SEM images of graphene/nickel hybrid foams before (a-b) and after (c-e) dynamic mechanical measurements at different magnifications.
