

Want to learn more about your options for training in data skills and best practices?

<http://dmtclearinghouse.esipfed.org>

The ESIP-hosted **Data Management Training Clearinghouse** can help you find training resources to complement or supplement your learning on research data management or other data skills. **Check it out!**

Science Gateways
Community Institute

This project is made possible by a grant from the U.S. Institute of Museum and Library Services (IMLS). IMLS Grant LG-70-18-0092-18. The DMTC is managed by the Earth Science Information Partners, with development support provided by DataONE, USGS, and the Science Gateways Community Institute. The views, findings, conclusions or recommendations expressed in this presentation do not necessarily represent those of the IMLS, or the other sponsor organizations

For example:

- Do you keep hearing about FAIR Data Principles and/or Data Management Plans?
- Are you wondering about whether to make your data open or shareable?
- Do you want to learn about tools that can help you:
 - Track your workflow?
 - Create descriptions while you're starting your projects instead of later?
 - Best visualize your data?
 - Learn how to use electronic notebooks?
 - Find the options for repositories for your data?
 - ...?
