

# Direct Export

After retrieving the results from a database search, mark the records and select the correct format to export, each browser behaves differently. With your desired Endnote library opened, follow the steps below:

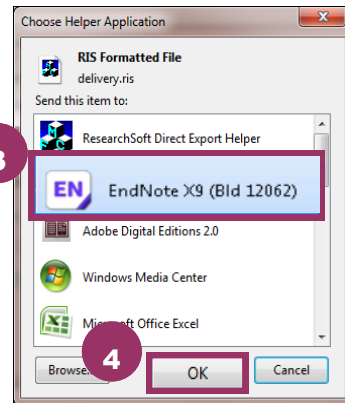

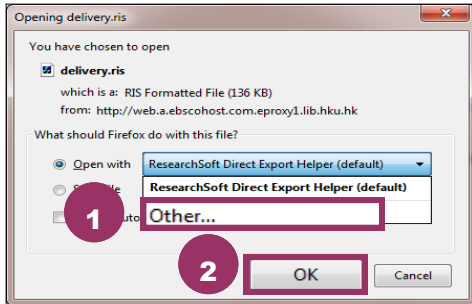

Chrome

Click the downloaded file.

Firefox

Choose **Open with > Other...**  
From the applications, choose **EndNote > OK**.

Internet Explorer

Click **Open** when prompted to do so.

Safari

Click **Open** when prompted to do so.
