

## Remove Duplicates

- 1 From the top bar menu, choose **References > Find Duplicates**

- 2 Although the two records refer to the **same reference**, Endnote assigns each with a **unique record number**.  
(Note: If you are citing the same reference multiple times, select the reference under a unique record number. Otherwise, the cited reference may be treated as two different citations.)

- 3 Different data of the records is **highlighted** for comparison. Select the record you would like to **keep**. To keep both records, click on **Skip**.  
(Note: Make sure the deleted record has not been cited in any of your papers.)
