

Supplementary figure 1.

Correlation between infarct volume and baseline and delta uric acid according to relevant vessel's patency

A. Recanalized vessel group

B. Non-recanalized vessel group

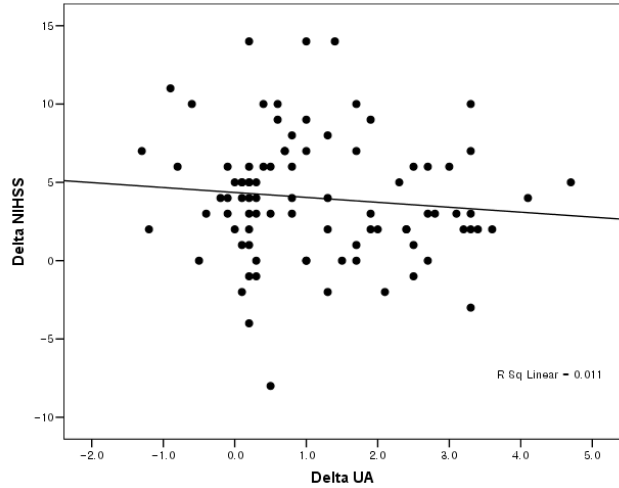

## Supplementary figure 2.

### Correlations between delta NIHSS and delta UA

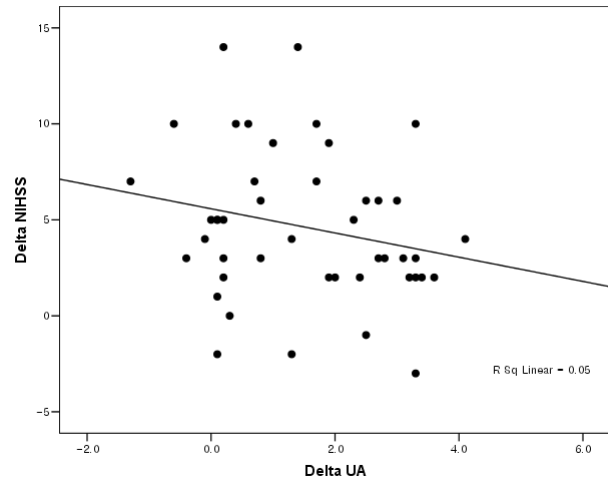

#### A. All patients (n=88)

$r=-0.104$ ,  $p=0.336$

#### B. Recanalized vessel group (n=45)

$r=-0.224$ ,  $p=0.139$

#### C. Non-recanalized vessel group (n=43)

$r=-0.073$ ,  $p=0.641$
