

Title: Establishment of a cytocompatible cell-free intervertebral disc matrix for chondrogenesis with human bone marrow mesenchymal stromal cells

Authors: Zhao Huang, Benjamin Kohl, Maria Kokozidou, Stephan Arens, Gundula Schulze-Tanzil

Journal: Cells Tissues Organs

Supplemental Figure 1.

A schematic diagram summarizing the experimental procedures is shown. The scheme depicts the decellularization and recellularization procedure of the different experimental groups. Scaffolds were reseeded either with non-differentiated or differentiated MSCs or IVDCs under dynamic conditions using a rotatory device.
