

## Erratum

---

In the article 'Genome-Wide Association Studies for Bivariate Sparse Longitudinal Data' by Das et al. [Hum Hered 2011;72:110–120], the following acknowledgement needs to be added:

### Acknowledgements

The Framingham Heart Study project is conducted and supported by the National Heart, Lung, and Blood Institute (NHLBI) in collaboration with Boston University (N01 HC25195). The Genetic Analysis Workshop is supported by NIH grant R01 GM31575. The simulated data was supported by the Washington University Institute of Clinical and Translational Sciences, NIH grant 1U54RR023496. The GAW16 Framingham and simulated data used for the analyses described in this paper were obtained through dbGaP (accession numbers). The authors acknowledge the investigators that contributed the phenotype, genotype, and simulated data for this study. The manuscript was not prepared in collaboration with investigators of the Framingham Heart Study and does not necessarily reflect the opinions or views of the Framingham Heart Study, Boston University, or the NHLBI.
