

Erratum

In the article by El-Zohairy et al., entitled 'Cyclic adenosine monophosphate-mediated enhancement of vascular endothelial growth factor released by differentiated human monocytic cells: the role of protein kinase A' [Med Princ Pract 2015;24:548–554, DOI: 10.1159/000433540], the labeling of the x-axis in figures 3 and 4 is wrong. The units should be micromolar (μM) and not millimolar (mM), as shown below.

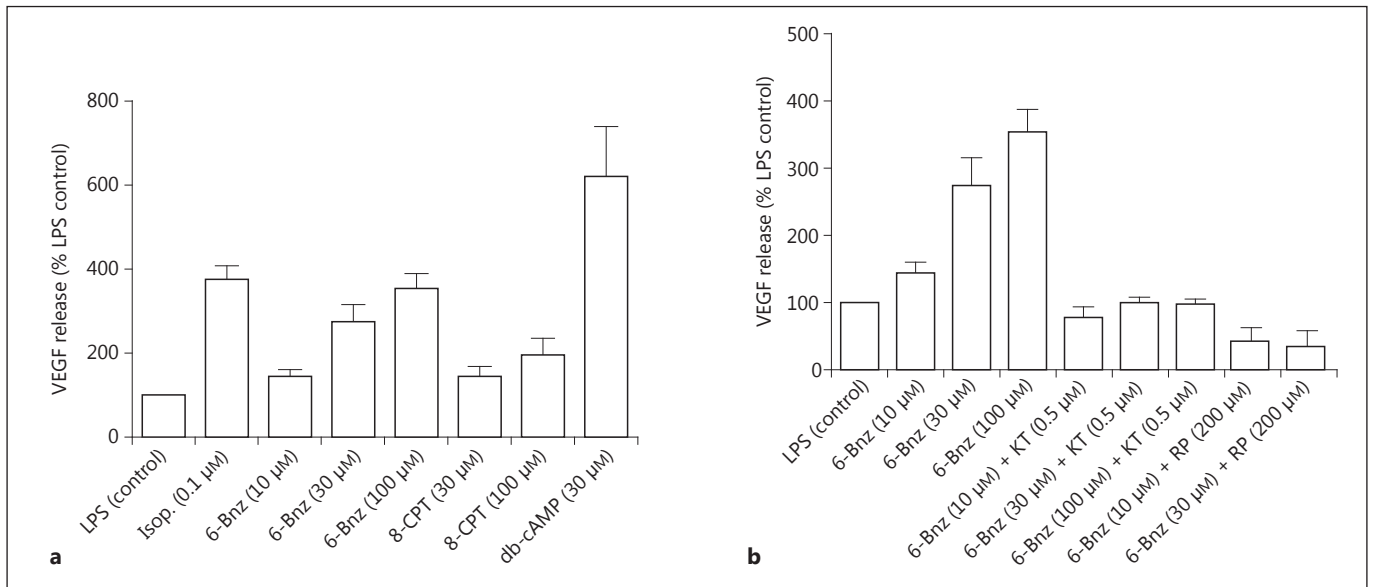

Fig. 3. **a** The effect of different cAMP pathway activators on LPS-induced VEGF release from differentiated U937 cells. Values are means \pm SEM of 4 separate experiments. **b** Effect of PKA inhibitors on 6-Bnz-cAMP-induced VEGF release from LPS-stimulated U937 cells. Values are means \pm SEM of 6 (Bnz) and 4 (Rp-cAMP and KT 5720) separate experiments. Isop. = Isoprenaline; KT = KT 5720; RP = Rp-cAMP.

Fig. 4. Effect of PKA inhibitors (Rp-cAMP and KT 5720) on isoprenaline- and db-cAMP-induced VEGF release from LPS-stimulated U937 cells. Values are means \pm SEM of 6 (isoprenaline) and 4 (db-cAMP) separate experiments. Isop. = Isoprenaline; KT = KT 5720; RP = Rp-cAMP.
