

Erratum

In the article by Senger S, Kollmar O, Menger MD and Rupertus K, entitled 'Darbepoetin- α promotes cell proliferation in established extrahepatic colorectal tumors after major hepatectomy' [Eur Surg Res 2016;56:49–60, DOI: 10.1159/000442384], figure 4 needs to be exchanged:

Color version available online

Fig. 4. Quantitative analysis of PCNA immunohistochemistry at d14 after tumor cell implantation. HPFs of representative tumors with PCNA-positive cells in a hepatectomized control (a) and a hepatectomized animal with DPO treatment (b). Scale bars represent 100 μ m. c The analysis of PCNA-positive cells in tumors of nonhepatectomized controls (CON) and DPO-treated animals (DPO). d The analysis of PCNA-positive cells in tumors of hepatectomized controls (Phx/PBS) and DPO-treated animals (Phx/DPO). Data are given as mean \pm SEM. $p < 0.05$ versus Phx/PBS.
