INFORMED CONSENT

Find the woman between the age of 15-49 associated with this Female Respondent Questionnaire. The interview must have auditory privacy. Read the following greeting:

Bonjour. Je m'appelle ___________________________ et je travaille pour l’Institut National de la Statistique de Côte d’Ivoire (INS-Côte d’Ivoire). Nous menons une enquête locale auprès des femmes sur plusieurs questions de santé reproductive, dont les connaissances, les attitudes et l’utilisation de la contraception et de l’avortement. Certaines de ces questions, particulièrement celles portant sur
l'avortement, ont été ajoutées expressément à des fins de recherche. Nous apprécions grandement votre participation à cette étude. Ces informations nous aideront à informer le gouvernement afin d’offrir de meilleurs services de santé. L’enquête dure généralement entre 30 et 40 minutes. Toute information que vous voudrez bien nous communiquer sera strictement confidentielle, et seules les données rendues complètement anonymes seront utilisées pour mener des analyses, en présenter les résultats et partager les données.

La participation à cette enquête, à la fois l’enquête standard et les questions de recherche, est entièrement volontaire. Si nous rencontrons une question à laquelle vous ne souhaitez pas répondre, faites-le moi savoir et je passerai à la suivante. Vous êtes libre de ne pas participer à cette enquête du tout, ou de l’interrompre à tout moment. Cependant, nous espérons que vous voudrez bien y participer car votre opinion est très importante.

Si vous avez des questions sur cette étude et sur vos droits en tant que participant à une recherche, vous pouvez me les poser ou contacter M. Aka Doré à l’Institut National de la Statistique de Côte d’Ivoire (INS-Côte d’Ivoire) au +225 09 34 14 94. Jusqu’ici, avez-vous des questions sur l’enquête ?
