

How to Write a systematic Review of the Literature

Authors: Pati, D. and Lorusso, L.

Course ID # HERD61

Full Name	AIA # / EDAC #	Email	Phone #

Learning Objective 1: Understand what constitutes Systematic Literature Review (SLR), as opposed to other types of literature reviews.

Learning Objective 2: Understand key steps involved in conducting a SLR.

Learning Objectives 3: Understand key sections in a SLR report and important questions that need to be addressed in each section of the report.

Learning Objective 4: Familiarize with critical quality issues involved in conducting and reporting a SLR.

Question 1: Only peer-reviewed publications are included in SLR.

- a. True
- b. False

Question 2: The research design (experimental, observational, etc.) is NOT the only factor that determines the quality of a study.

- a. True
- b. False

Question 3: How many team members are required for a SLR to work best?

- a. 1
- b. 2
- c. 3
- d. 4

To earn AIA continuing education units please complete form, and email Catherine Ancheta at cancheta@healthdesign.org and your credits will be uploaded to your AIA account. To earn EDAC continuing education units please complete the form, retain the form for your records and self-submit the credits at the time of your EDAC renewal. The form is your "proof of attendance."
