

Table S2 Details of the Slavin method

Strong evidence	multiple, relevant, high-quality randomized controlled trials (RCTs) with generally consistent outcomes.
Moderate evidence	one relevant, high-quality RCT and 1 or more relevant, low-quality RCTs with generally consistent outcomes.
Limited evidence	one relevant, high-quality RCT or multiple relevant, low-quality RCTs with generally consistent outcomes.
Inconclusive evidence	only 1 relevant, low-quality RCT, no relevant RCTs, or RCTs with inconsistent outcomes.
