Data extraction form – used for all included papers

Reference details

First author	
Year of publication	
Title of paper	
Reviewer's initials	
Date of screening	

Study design

Name of study/cohort (if applicable)		
Country		
Design	Experimental	
	Prospective observational	
	Retrospective observational	
	Case-control	
	Cross-sectional	
	Other (specify)	
Year(s) data collection (if available)		
Sample size (N)		
SMI cohort a sub-sample? Y/N If no, N (%)		
Whole sample deceased? Y/N		
If no, N/% sample deceased		
Any relevant inclusion/exclusion criteria?		

Sample characteristics

Age (mean or range)		
Gender		
Type of population (if applicable) (eg, veterans)		
Setting (eg, community, hospital) (if applicable)		
SMI diagnosis	Mixed sample? Y/N If yes, list diagnoses and %	
	Diagnosis specific? Y/N If yes, specify	
Other comorbidities		
Did any of the SMI sample have physical diagnoses? Y/N If yes, detail		
Cause of death (natural/unnatural/mixed, N/%)		
Cause of death (if deemed relevant)		
Other comments		

Outcomes

i. Place of death

(Leave blank if not relevant)

Place of death	N (%)	Comments	Comparator? (describe population and give N/%)
Care home			
Home			
Hospice			
Hospital			
Other (give details)			

ii. Health care in last year of life

Type of health care	How is it measured? Eg, Length of stay	Time frame	Comparator? (If applicable)	Comments

Association(s) reported/description of health care access/use in the last year of life

Quality assessment

Quality assessment score (range 0.0-1.0)
