IMMERSE

- Learn about the local interventions that address modern global challenges, the people, places and processes that have facilitated change.
- Step into our series of research rooms and activity spaces for an immersive interactive learning experience.
- Sample socially and environmentally responsible food that feels as good as it tastes at our sustainable street food market.
- Meet the inventors, creators and architects of our world of discovery to connect, chat and exchange ideas.

Join IMMERSE on Wednesday 10th July 2019 for an evening of Interactive Memorable Methods to Explore Research & Science as an 'Experience'. IMMERSE yourself and discover the local, global and virtual through sight, sound, sensation, touch & taste.
