Working as a community, for the community

We strive for a full, fair and accurate Census count and in order to achieve that, we need our community to take action and make themselves count in the upcoming Census 2020.

Achieving a full count helps guide funding to programs that are crucial to the well-being of families and communities and inform important policy decisions for the next decade.

Data Mapping

See the projected response rates in each community, the factors contributing to response rates, where outreach activities are happening, and the level of engagement in each community.
