

2018 UW-NPS Harlow Summer Seminars

AT THE AMK RANCH NEAR LEEK'S MARINA, NORTH OF COLTER BAY

Open to the public – reservations not required, \$5+ donation

THURSDAY, JULY 26TH 2018, 5:30 PM

The secret lives of mountain lion kittens

Mark Elbroch

Lead Scientist, Puma Program, Panthera

Join us for a visual and anecdotal presentation on the little-known lives of mountain lion kittens. Mark will share research conducted locally in and adjacent to Grand Teton National Park, supported by footage captured by motion-triggered cameras in dens, around kill sites, and at bedding areas. He will also highlight Panthera's research quantifying changes in the local mountain lion population, and the current challenges faced by mountain lion kittens in particular as they grow, play, and try to survive long enough to become independent adults of their own.

Steve Winter
National Geographic

Barbecue starts at 5:30 with hamburgers, veggie burgers, hot dogs, chips, salads and dessert for a \$5+ donation. The talk starts at 6:30 in the historic Berol Lodge at the AMK Ranch. Turn right when entering Leek's Marina parking lot in Grand Teton National Park.

Biography (see attached photos):

Dr. Mark Elbroch serves as the Lead Scientist for Panthera's Puma Program. He has contributed to puma research and conservation in Idaho, Wyoming, Colorado, California, Mexico, Chile, and now in Washington. His research is contributing radical changes to what we thought we knew about pumas, especially with regards to their social lives and their keystone roles in ecosystems. He received a 2011 Robert and [Patricia Switzer Fellowship](#) for his past and potential environmental leadership, and was the recipient of the prestigious [Craighead Conservation Award](#) in 2016, an award honoring individuals whose work has achieved “lasting conservation outcomes.”
