

Appendix 1. Maps of the potential Wildlife Draw Research Natural Area.

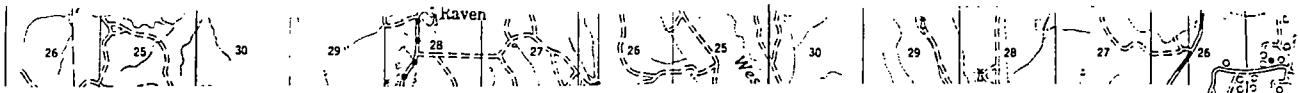

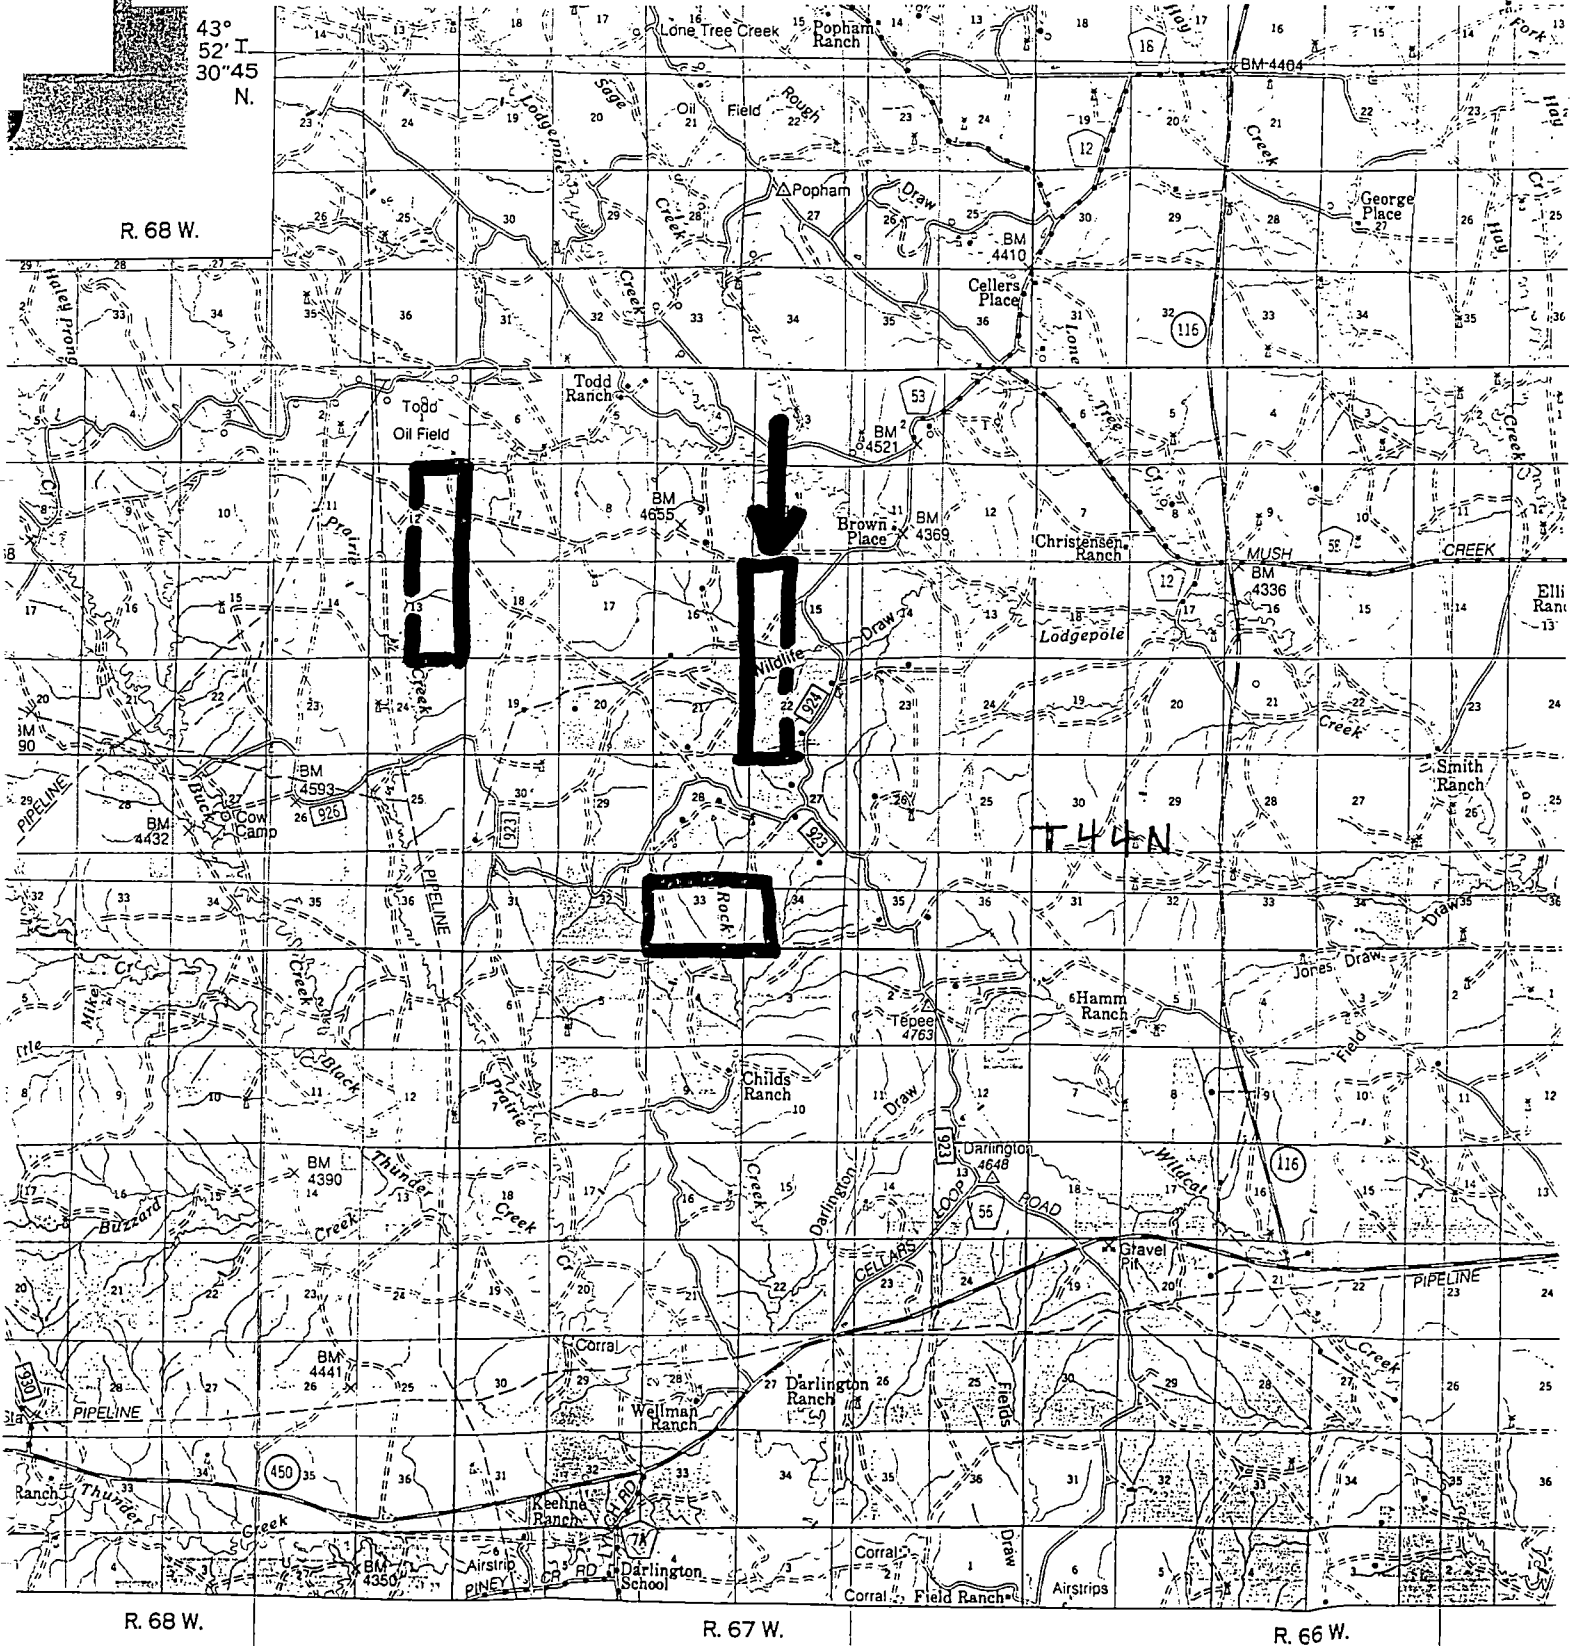

Figure 1. Location of the potential Wildlife Draw RNA.

R. 68 W.

R. 67 W.

R. 66 W.

Figure 2. Contour map showing complexes of Kuchler (1964) vegetation types in the potential Wildlife Draw RNA. Major types in each complex are indicated by (M) after the name, and minor types by (m).

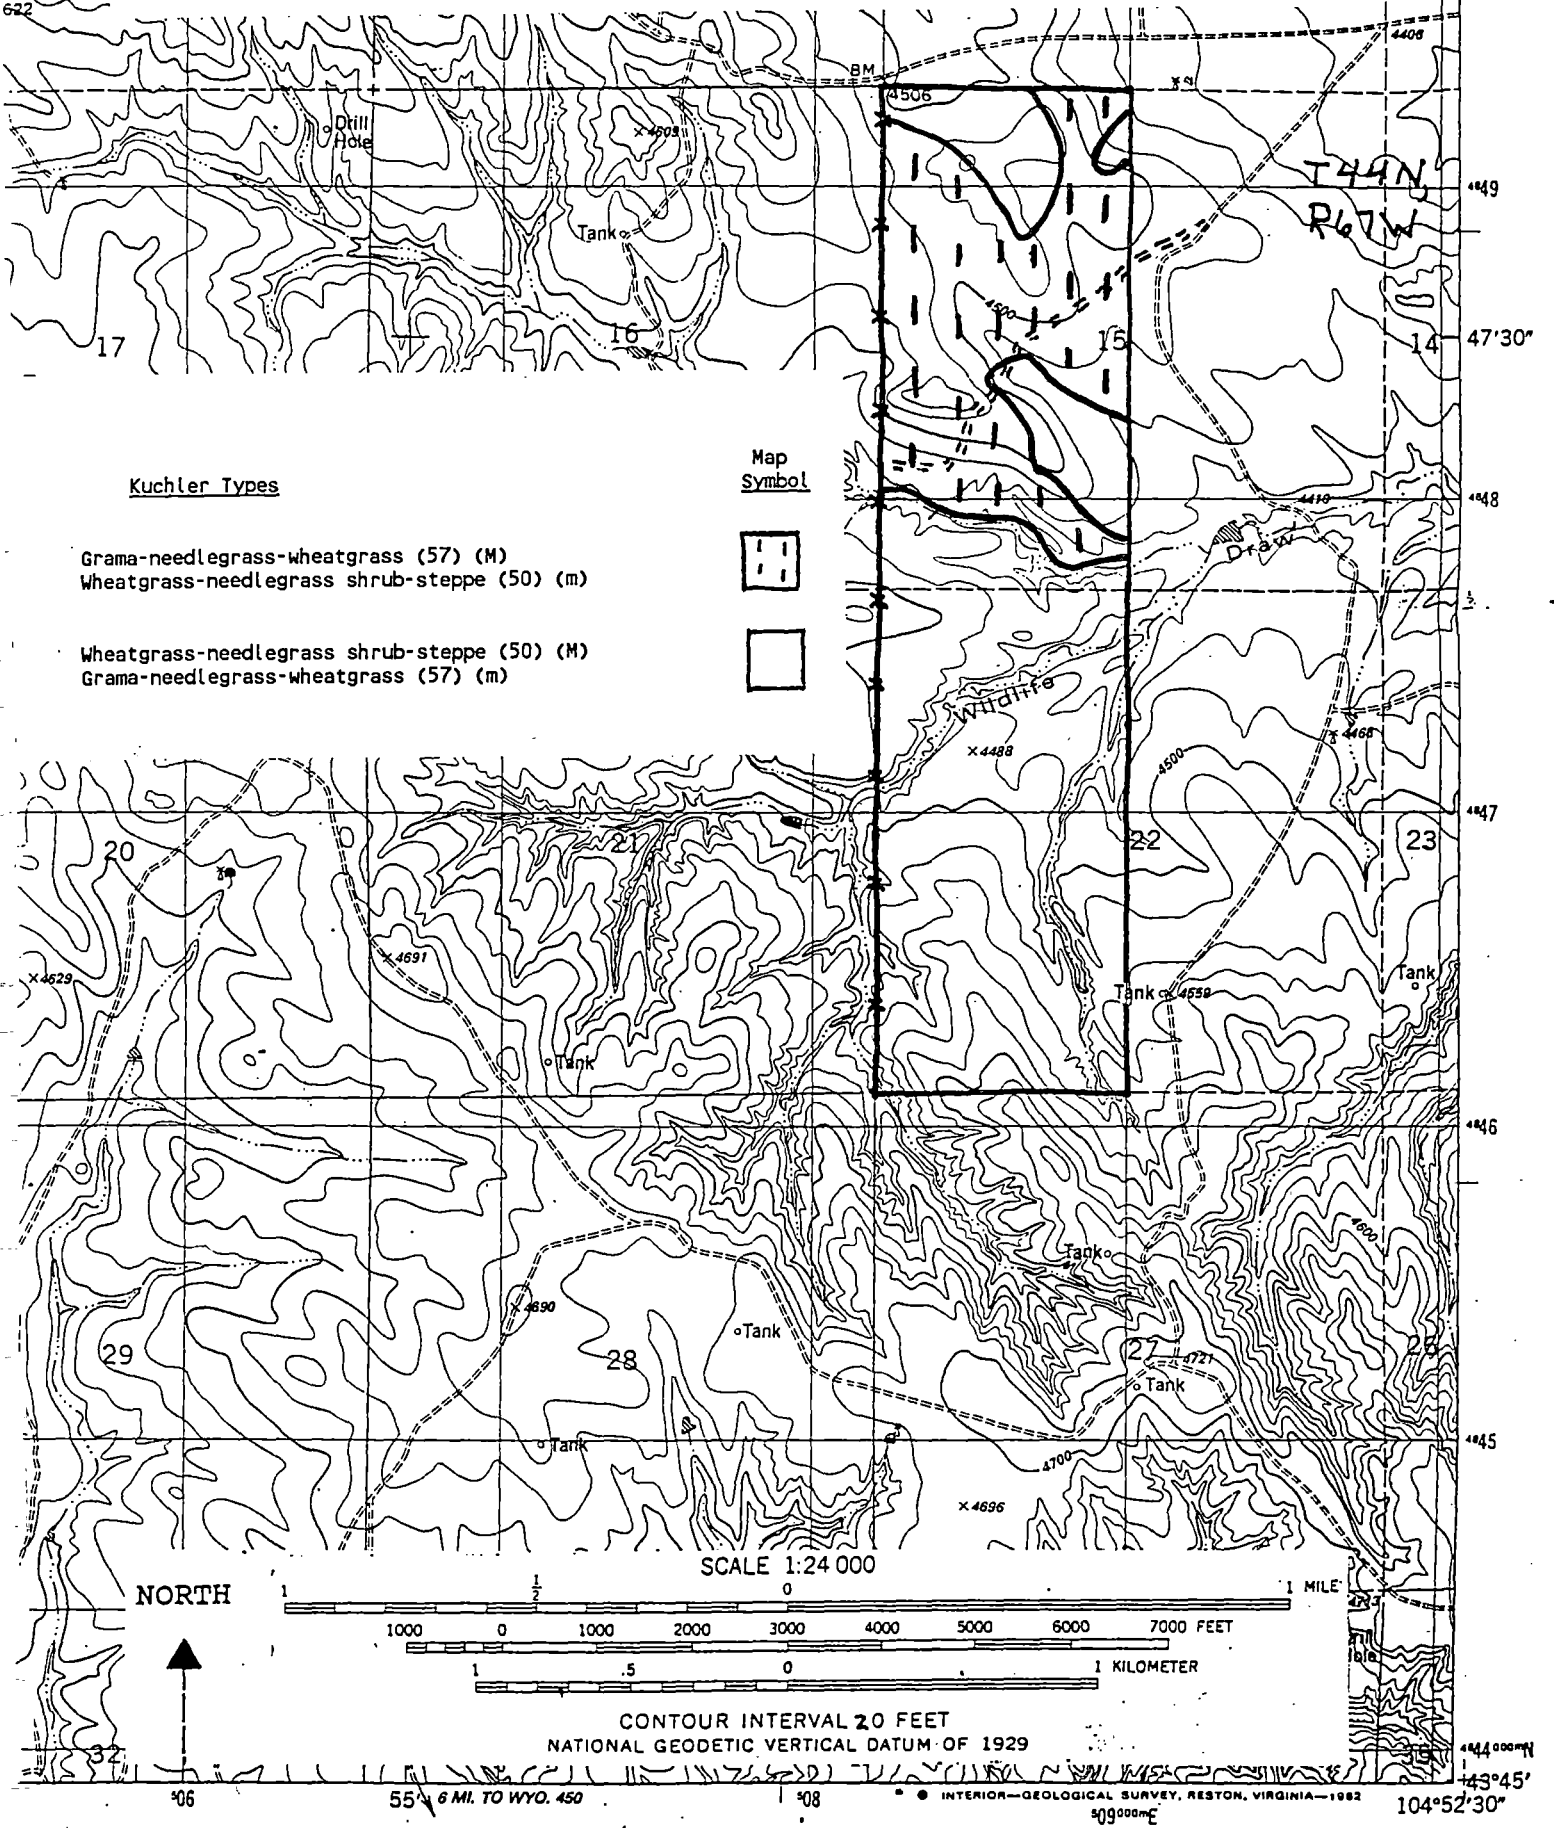

Figure 3. Contour map showing complexes of plant associations and locations of sampling plots (■) in the potential Wildlife Draw RNA. Major associations in each complex are indicated by (M) after the name, and minor associations by (m).
