

# Fix for Longer September 2020

Terms & Conditions

---

**SCOTTISHPOWER**

1. Supplies of mains gas and/or electricity from ScottishPower under the Fix for Longer September 2020 tariff ('Tariff') will be available from 1<sup>st</sup> February 2018 until the date when the Tariff is withdrawn by us. All applicants must be aged 16 years or over and must contract to pay, and continue to pay, for the energy supply under the Tariff by monthly Direct Debit, quarterly Direct Debit, online Debit Card, quarterly by Cash, Cheque or Postal Order.
2. Subject to Condition 8, ScottishPower guarantees that Fix for Longer September 2020 prices will remain fixed until 30<sup>th</sup> September 2020.
3. This Tariff is only available to existing ScottishPower customers who have defaulted at the end of their fixed term tariff by taking no action.
4. ScottishPower will write to you before the end of the tariff to let you know what will happen next. Unless you choose another option, we will move you to another tariff on the same payment method and will provide further details of this tariff and the impact to you in this communication. At the end of the tariff you will also have the option to cancel your contract with ScottishPower without being required to pay exit fees.
5. The prices you pay as a Fix for Longer September 2020 customer will replace any mains gas and/or electricity prices which you may currently pay. These prices can be reviewed in the "Your tariff information" section of your confirmation letter and on our website, under Tariff Information Label.
6. The obligations on ScottishPower under the Tariff and these terms and conditions will not come into effect until we have been registered as the supplier of mains gas and/or electricity to the property.
7. If you leave the property to which this Tariff applies, you will not be able to transfer this current Tariff to another property. However, you will be entitled to apply for any ScottishPower tariff that is available when you move property.
8. ScottishPower will meet the Tariff's fixed price guarantee unless it is prevented from doing so by the actions or requirements of any governmental, statutory or licensing authority.
9. If you pay by Monthly Direct Debit and fail to make a payment to ScottishPower under this payment method when it is due, we shall be entitled to transfer you to an appropriate cash payment method on this tariff. This will increase your unit rates by 1.351p per kWh for electricity and 0.306p per kWh for gas (both inclusive of VAT). If you have more than one unit rate for electricity, each unit rate will increase by the same amount. If you pay by another payment method and fail to make a payment to ScottishPower under your payment method when it is due, we shall be entitled to transfer you to an appropriate cash payment method on our Basic tariff. To see how this could affect you, please visit [www.scottishpower.co.uk](http://www.scottishpower.co.uk) and review our current Basic Domestic Prices PDF in the Gas and Electricity Tariffs section. We will notify you of any changes to your payment method and prices should this be necessary.
10. These terms and conditions are in addition to the ScottishPower Gas and Electricity General Terms and Conditions for Domestic Customers, which can be accessed at <https://www.scottishpower.co.uk/domestictermsandconditions>

**Tariff Availability**

This Tariff is only available to existing ScottishPower customers who have defaulted at the end of their fixed term tariff by taking no action, who take gas and/or electricity, pay their bills by monthly Direct Debit, quarterly Direct Debit, online Debit Card, quarterly by Cash, Cheque or Postal Order and their electricity meter is a single, two or three rate meter.

**Quote and Comparison Information**

Any quote given to you for this tariff is based on the information you have provided to us. If we become aware this is not accurate, we will advise you of the correct prices in writing.

If you're currently on a fixed term tariff that's due to end in the next 12 months, we've used your current prices and the prices you would most likely be transferred onto when your current tariff ends to provide you with a comparison.
