

Principal terms and conditions

Set out below are the Terms and Conditions specific to your tariff together with a summary of the key parts of the Terms and Conditions applicable to all tariffs. The all tariffs Terms and Conditions are available at [shellenergy.co.uk](https://www.shellenergy.co.uk).

Cooling off period

You have the right to cancel your contract within 14 days of the date you entered into it. This is known as a cooling off period. To do this, you may use the cancellation form on our website but you don't have to so long as you inform us of your customer number and your decision to cancel in a clear statement by telephone on **0330 094 5800**, e-mail to cancelmyregistration@shellenergy.co.uk or letter to Customer Services, Shell Energy, PO Box 6363, Coventry, CV3 9LR.

Credit Checking

We may use the information you have given us to make checks with our credit checking agency to confirm your identity as part of our registration process or, where this is not possible, after the Contract is already in force. In certain circumstances we may require a security deposit as a condition of supplying you. In the event that we do request a security deposit, we may contact you to offer an alternative payment method or service, which may then remove the need for a security deposit.

Switching over from your current supplier

When we transfer your electricity and gas to Shell Energy, if you have applied for a dual fuel tariff, we will move your electricity first, and then your gas once we have confirmation of the electricity transfer. If your current supplier subsequently objects to the transfer of your gas and this cannot be resolved we will supply you with electricity only. Should this happen you can choose either to take an electricity only service or leave Shell Energy.

Fixed Prices for the Initial Contract Period

This Contract has a fixed price during the fixed term period which is up until 31 March 2021. We may not change the Terms and Conditions of this Contract prior to that date, unless: the change is not to your disadvantage, the information you have given us is incomplete or incorrect, we have to install a prepayment meter, or there is an increase in VAT payable. At the end of the fixed price term, unless you choose to do otherwise, you will be moved on to our cheapest variable price tariff (one without a fixed term); we will contact you in advance to tell you your new prices. We may end this Contract or move you on to a different tariff if you ask to move to another tariff, we fit a prepayment meter, or, as this is a dual fuel tariff you switch your gas and/or electricity to another supplier. If you or we end this Contract before 10 February 2021 we may charge an early exit fee of £30 per fuel.

Billing

You'll receive a bill every three months, or more frequently if we notify you otherwise. Payments will be collected as a fixed monthly amount Direct Debit 'Monthly Direct Debit', a variable amount Direct Debit 'Variable Direct Debit' or you can choose to 'Pay on Receipt of Bill' via cash, cheque, card or online payment. 'Monthly Direct Debit' means Shell Energy will deduct a fixed amount from your account each month. This monthly amount may vary after any reassessment of your payments if they aren't in line with your actual or projected energy usage. This will be communicated to you prior to any changes taking effect. 'Variable Direct Debit' means Shell Energy will deduct from your account the amount that's shown on your electricity and gas bill. This means that your full balance will be paid following the issue of each bill. 'Pay on Receipt of Bill' means that you'll need to pay the amount shown on your electricity and gas bill in full via cash, cheque, card or online payment. If you have opted to 'Pay on Receipt of Bill' your standing charges, shown on the front of this tariff guide, will include an administration charge of up to £48 per year per fuel. You may choose to receive your bills in paper or electronic form (including accessing your bills online). To change your billing preferences please log in to your online account or telephone us on **0330 094 5800**.

Possible additional charges & discounts

Where you do not pay us by direct debit we will make an administration charge of up to £48 per year per fuel. All bills will be electronic and accessible via your online account. A summary of charges relevant to you is available on our website in the "Help and Advice" section.

Leaving Shell Energy

You can leave at any time but you will be required to pay any outstanding debt before doing so. If you are repaying a debt to us by means of a prepayment meter, you have the right to switch supplier as long as the debt that you are repaying is less than £500 and your new supplier agrees to take on this debt. Please bear in mind that if you do leave before 10 February 2021 we may charge an early exit fee of £30 per fuel. If there is a debt outstanding on your account we may object to your transfer. You can resolve this by either (i) repaying us the debt within 30 days of us advising you of this requirement; or (ii) where you are paying for your energy using a prepayment meter, if the debt you are repaying is less than £500, your new supplier agreeing to take on the debt.

Discounts

Principal terms and conditions

Additional Charges

This tariff has an exit fee of £30 per fuel if you end your contract before 10 February 2021.

Bundles

There are currently no bundled products available with this tariff.

Rewards

Once you have passed the supply start date you will be eligible to receive a Shell Energy fuel saving of 3% off the cost of Shell fuel up to a maximum of 60 litres per month, which can only be redeemed at participating UK Shell service stations against Shell fuel (V Power and main grade petrol and diesel) and LPG. In order to receive this fuel saving you will need to register with Shell Go+.

Only one Shell Energy fuel saving is available per property, even if you are both an energy and a broadband customer. Your allowance will be refreshed on the 1st of each calendar month. If you do not use your Shell Energy fuel saving in any given month then it will be lost and cannot be rolled over and used in another month.

A summary of charges relevant to you is available on our website in the "Help and Advice" section

Get help with an energy problem

Contact Citizens Advice if you need help with an energy problem - for example with your bills or meters, or if you're struggling to pay for the energy you use. We're the official source of free and independent energy advice and support.

Go to citizensadvice.org.uk/energy or call us on **03454 04 05 06**. Calls are charged at your normal rate.

If you do need to make a complaint, you should contact our Customer Services Team in the first instance on **0330 094 5800**. They will do their best to resolve your complaint, but if you feel your complaint has not been handled to your satisfaction, you may then speak to our Customer Contact Specialist Team.

If you remain unhappy with our resolution of your complaint, or if your complaint has not been resolved within 8 weeks of the date you told us about it, you may refer the matter to the Ombudsman Services: Energy on **0330 440 1624** or at ombudsman-services.org/sectors/energy. They are free and independent, and we are bound by their decision.

Shell Energy fuel mix disclosure label

Every energy company needs to provide a fuel mix disclosure which shows the breakdown of electricity generation historically. The table below shows this for the period 01/04/2018 - 31/03/2019 including the time when we were trading under the First Utility name up until 25/03/2019.

We keep the figures on this page updated in line with the publishing dates of the Government's fuel mix data disclosure data table, as defined in the Electricity (Fuel Mix Disclosure) Regulations 2005.

Energy source	Our fuel mix %	UK fuel mix %	Carbon dioxide
Coal	8.74	5.2	920
Natural gas	59.22	41.4	349
Nuclear	17.78	18.7	0
Renewables	10.53	42.8	0
Other	3.73	1.9	871

Shell Energy Retail Limited total emissions are 319.6 (g/kWh). Nuclear waste is 0.001244262 (g/kWh).

Our current fuel mix

All our electricity now comes from renewable sources such as wind, solar and biomass. This is certified by Renewable Energy

Principal terms and conditions

Guarantees of Origin (REGOs), which guarantees that for every unit of electricity you use, a unit of renewable electricity is put into the grid by renewable generators in the UK.
