

Principal terms and conditions

These are the Terms and Conditions specific to your tariff and a summary of the key Terms and Conditions applicable to all tariffs. The full Terms and Conditions for all tariffs are available at [shellenergy.co.uk](https://www.shellenergy.co.uk).

Cancellation Rights

You can cancel your contract within 14 days of the date you entered into it, by using the cancellation form on our website or by emailing cancelmyregistration@shellenergy.co.uk, phoning **0330 094 5800** or writing to Customer Services, Shell Energy, PO Box 6363, Coventry, CV3 9LR with your customer number and a clear statement of your decision to cancel.

Credit Checking

We may use your information to carry out a credit check. In certain circumstances we may require a security deposit as a condition of supplying you, if so we may contact you to offer an alternative payment method or service, which may remove the need for a security deposit.

Switching over from your current supplier

If you have applied for a dual fuel tariff and your current supplier subsequently objects to the transfer of one fuel and this cannot be resolved, we may choose to supply you with the other fuel only.

Fixed Prices for the Initial Contract Period

This Contract has fixed prices until 30 September 2022. We may not change the Terms and Conditions of this Contract prior to that date, unless: the change is not to your disadvantage, the information you have given us is incomplete or incorrect, we have to install a prepayment meter, or there is an increase in VAT payable. After 30 September 2022, unless you choose to do otherwise, you will be moved on to our cheapest variable price tariff (one without a fixed term); we will contact you in advance to tell you your new prices. We may end this Contract or move your remaining supply to a different tariff if you ask us to, we fit a prepayment meter, or, for dual fuel tariffs, if you switch your gas and/or electricity to another supplier. If you or we end this Contract before 12 August 2022 we may charge an early exit fee of £50 per fuel.

Billing

You will receive a bill every three months or more frequently if we notify you otherwise. Payments will be collected by:

- 'Monthly Direct Debit' - Shell Energy will deduct a set amount from your account each month, this amount may vary after any reassessment if your payments aren't in line with your actual or projected energy usage. Any change will be communicated to you prior to taking effect;
- 'Variable Direct Debit' - Shell Energy will deduct from your account the full amount shown on your electricity and gas bill; or
- 'Pay on Receipt of Bill' - you will need to pay the full amount shown on your electricity and gas bill by cash, cheque, card or online payment.

If you have opted to 'Pay on Receipt of Bill' your standing charges will include an administration charge of up to £48 per year per fuel.

You may choose to receive your bills in paper or electronic form (including accessing your bills online). To change your billing preferences please log in to your online account or telephone us on **0330 094 5800**.

Possible additional charges & discounts

A summary of charges relevant to you is available on our website in the "Help and Advice" section.

Leaving Shell Energy

You can leave at any time but, as long as you are not supplied by a prepayment meter, you will be required to pay any outstanding debt before doing so. If you are supplied by a prepayment meter, you may switch supplier if the debt that you are repaying is less than £500 and your new supplier agrees to take on this debt. Please bear in mind that if you do leave before 12 August 2022 we may charge an early exit fee of £50 per fuel. If there is a debt outstanding on your account we may object to your transfer, this can be resolved either (i) by you paying the debt within 30 days of us advising you of this requirement; or (ii) if you are supplied by a prepayment meter and your debt is less than £500 and your new supplier agrees to take on the debt.

Shell Energy fuel mix disclosure label

Every energy company needs to provide a fuel mix disclosure which shows the breakdown of electricity generation historically. The table below shows this for the period 01/04/2018 - 31/03/2019 including the time when we were trading under the First Utility name up until 25/03/2019.

We keep the figures on this page updated in line with the publishing dates of the Government's fuel mix data disclosure data table, as defined in the Electricity (Fuel Mix Disclosure) Regulations 2005.

Energy source	Our fuel mix %	UK fuel mix %	Carbon dioxide
Coal	8.74	5.2	920
Natural gas	59.22	41.4	349
Nuclear	17.78	18.7	0
Renewables	10.53	42.8	0
Other	3.73	1.9	871

Shell Energy Retail Limited total emissions are 319.6 (g/kWh). Nuclear waste is 0.001244262 (g/kWh).

Our current fuel mix

All our electricity now comes from renewable sources such as wind, solar and biomass. This is certified by Renewable Energy Guarantees of Origin (REGOs), which guarantees that for every unit of electricity you use, a unit of renewable electricity is put into the grid by renewable generators in the UK.

8.0 Philips Hue Warranty terms and conditions

This product (Philips Hue White Starter Kit (E27)) is specifically designed and developed for domestic use in normal conditions and operation only. The lifetime mentioned on the packaging is an average only (in accordance with standards L70B50 and IEC60969 norms) and is based on an average of 3 burning hours per day.

If you encounter any difficulties with the use of the product, we recommend that you first consult the user manual and the support information on the Philips Hue website. Subject to the terms and conditions Shell Energy warrants that the product is free from defects in materials and workmanship for a period of two (2) years after the date of purchase subject to maintenance of the product in accordance with the care and cleaning instructions laid down in the user manual. Unless statutory provisions of applicable law regulate otherwise, our obligations under warranty will be limited, at our option, to either repair or to provide a replacement product for the defective product. (De)mounting and/or (de)installation and labour costs are excluded from this warranty, as well as broken glass, batteries and replaceable bulbs. Our remedies under warranty will not extend or renew the original applicable warranty period. We are entitled, at our option, to replace the defective product covered by warranty, with a product that has minor deviations in design and/or specifications which do not affect the functionality of the product.

In order to be entitled to make a valid claim under this warranty, you must present to us on request, the defective product. To the maximum extent permitted by law, this policy sets out our entire liability in connection with defective or non-conforming products. We will not be liable to you for other losses or indirect or consequential damages (including but not limited to loss of data or loss of income), nor compensate you for activities such as regular maintenance, saving or restoring data. Your statutory rights arising from applicable law are not affected by this voluntarily provided warranty.
