

MOBILETUNING (SOUTH DURHAM)

P38 replacement keys by Mail Order

We need to collect some data from your original key so if you don't have a spare key you can send us we will send you a 'Data Grabber'... see right.

Contact us by phone or email with your V5 registration document at hand, make payment by Credit Card (or * Paypal), and we will send you the Radio Data recorder.

When you receive it just turn it on and operate your key about 5 times. The led on the unit will light to signify that has received enough data each time. Turn the unit off and send it back to us.

We will send your new key within about 4/5 working days. The new key blade will be uncut. The new key will need to be synchronised to your car (as would an OE key) and instructions will be supplied with the new key.

You can actually sync the key before getting the blade cut (unlike an OE key) so you can check it does operate the immobiliser.

The new key carries a 12 month guarantee.

(* Paypal add £3.00)
