

Billing Options

Every business is different, so a one bill-fits-all kind of system just doesn't make sense to us.

Be it single or multi-site, tell us how you operate and invoice your customers, and we'll create a flexible billing structure that works for you. It will be created around the way you actually do business with separate invoices for separate commercial sites, if that's what you prefer, and customised payment terms depending on your circumstances, plus, no service charge on credit card payments.

For multi-sites we can also offer flexible 'Group Billing' options. This has helped many of our customers manage multiple site invoices much more effectively. We can send you one invoice for all your sites backed up with an electronic or paper report cutting down on unnecessary paperwork.

However, if you do need one invoice per site, that is also no problem. We always aim to create a billing structure that is the most advantageous to your business.

To find out more about our billing options simply call us on 01423 502 554 to talk direct with a member of our experienced Billing Team or email billing@cngltd.co.uk.
