Children's perceptions of themselves as readers

With younger children you may like to talk with them and scribe their replies.
Do you like reading? Why? Why not?

Do you think you are a good reader? How do you know?

What makes it difficult to read? What makes it easy?

Do you prefer to read silently to yourself or aloud to someone? Why is that?

Do you read a lot at home?

Does anyone read to/with you? What sorts of things do you like to read? What is a recent favourite?

How do you know what to choose to read? Does anyone help you?

Why do you think people need to be able to read?
