Cultivating Students' Potential from Pre-K through High School

© Debrah C. Sickler-Voigt, PhD

## Portrait Orientations

- A **frontal view** is an artistic rendering of a person's full-face.

- A **profile** presents a person's head directly from the side. Only one half of the face is visible.

- A **three-quarter view** portrays a head from an angle showing the eyes, nose, and mouth, but not the full face. It is halfway between a frontal view and profile.

Top Image: Jana Swastik, 12 years old, The Park Institution, Kolkata, India. 38th ICEFA Lidice.

Middle Image: Nirel Kadzo, 14 years, Kenya Lisa Wee, teacher. Bottom Image: Antonio Giancarlo Piolo, 15 years, Lourdes School of Mandaluyong, Mandaluyong, Philippines. 43<sup>rd</sup> ICEFA Lidice.
