

A Guide to Making... **Pinch Pots!**

by © Kiersten Maddox

1.

Begin with a small, baseball-sized, chunk of clay.

2.

Use your hands, in a cupping motion, to roll your clay into a sphere.

3.

Next, using your thumb, press a hole in the middle of the sphere.

4.

Use your thumb and fingers to pinch the edges of your pot in a circular motion.

5.

Using water, apply a thin amount to smooth the surface of the clay.

6.

Finally, alter your pot with various textures and forms.
