

Hello John,

My name is New Composer. I'm a HUGE fan of your past work on SuperSpace 3D. I just read on Twitter that you are developing a new sci-fi shooter set in the Centauri system. Congratulations, that's exciting news!

Do you have a composer attached to the project yet? If not, I would love to learn more about your vision for the game's music. May I call you in the next week to discuss?

Cheers!

*New Composer*
