

WOMEN OF NEW YORK

WPA CUTS THREATEN YOUR STANDARD OF LIVING

Prices are going up everywhere! Meat and groceries are getting more expensive every day. Rents are rising. Clothing for you, your husband, your children, and your family costs more. The things you have to buy to use around the house are becoming more expensive.

You know these things. And you know just as well that people are still without jobs. Your husband, brother, father, or son may be looking for a job even as you read these lines. In fact, all the newspapers will tell you that 10,000,000 are still unemployed in this country.

WPA CUTS—Meanwhile what is happening on the WPA? Congressmen from New York City, having enough to live on for themselves and their families, voted to cut off 60,000 people from the WPA in New York City. And these people will be thrown into the streets.

What will this mean to you? Discharged WPA workers looking for jobs will tend to work for lower wages than your husband may be getting. And because there will be so many looking for jobs, wages will go down. And from the point of view of the community, you well know that WPA workers should not be fired so that they can look for jobs which are not there!

WPA IS USEFUL—And besides, need we tell you that WPA workers are teaching your children in schools, are taking care of them in nurseries and settlement houses, and are furnishing them with amusement through the theatre? Need we tell you that women WPA workers are working in the libraries, the hospitals and sewing garments for home relief clients?

Therefore, we appeal to you: Women of New York . . . Whether you are a WPA worker yourself, whether you are on home relief, or whether you are a housewife or business woman, to use your efforts to defeat the WPA dismissals.

**JOIN THE MAMMOTH DEMONSTRATION OF 10,000 WOMEN
AT CITY HALL ON SATURDAY, JUNE 26th, at 11 A.M. SHARP.**
