Art, Design and Media
Business, Law and Social Sciences
Computing
Science and Engineering

International Year One:
Business
Computing

Postgraduate pathways
Progression degrees

Pre-Master’s:
Business, Law and Social Sciences
Computing

Module summaries

Your path to university
From September 2020, we will be running in-person teaching with a mixture of digital and face-to-face learning (called blended learning). This means you can study safely and effectively, and enjoy UK life. If you’re not able or ready to travel, you can begin your course online.

 kaplanpathways.com/awc/uk/

For pathway courses starting between: September 2020 and July 2021
Leading to degree entry in: 2021 or 2022
Last updated: July 2020

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

**Academic entry requirements:** for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham-trent/ug-degrees

**Your course length:** this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

*For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham-trent/ug-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

For some degrees, the University will require you to take a particular pathway. Details are on the online Degree Finder and will be in your offer letter.
### Common modules for 2-term course:
these are taken by all students
- English for Academic Purposes
- Information Systems Analysis and Design
- Introduction to Information Systems Analysis
- Maths for Computing 1
- Maths for Computing 2
- Networking
- Python Programming and Computer Technology
- Skills for Study 2
- Software Design and Implementation
- Web Development

### Minimum English level:
**UKVI IELTS score**

### Personal development activities:
during your course, you’ll also have activities to build practical, digital and employability skills.

Learn more about modules: you’ll find module summaries later in this booklet.
Undergraduate module summaries

Accounting and Finance for Managers
Apply main principles and techniques for financial reporting and analysis and management accounting.

Art, Design and Media
Explore a range of materials, workshop techniques, processes and practical skills, and begin to develop your research, interpretation and critical evaluation skills.

Biology
Gain an understanding of biological systems and organisms, and learn about key laboratory processes.

Business Development and Entrepreneurship
Learn to produce and present a business plan, and apply consultancy techniques.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Contemporary Global Issues
Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Creative Practice and Portfolio
Research the work of selected practitioners in your field, responding to and evaluating their work, in your own illustrative portfolio.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications
Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

Economics
Gain an understanding of macro and micro economics, and explore current trends and issues in the field.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

Entrepreneurship
Familiarise yourself with varied concepts of creativity, entrepreneurship and innovation, and how to apply them in business.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a project topic that matches your degree and career goals, and personal interests.

Financial and Management Accounting
Interpret financial statements and explore the relationship between IT and the processing of financial information.

General English
Develop your English language accuracy and range to engage in everyday situations whilst living in the UK and studying at the College.

History and Culture
Explore the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Intermediate Digital Applications
Develop skills in problem-solving and creative practice using a range of software packages appropriate to your field of study.

Intermediate Mathematics
Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Introduction to Information Systems Analysis
Develop an understanding of the main principles of conceptual systems modelling, and utilise traditional structured approaches to information systems analysis and design.

Logic and Critical Thinking
Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Marketing in the Operational Context
Learn about marketing as it is used within a business, and the impact of core activities on performance.

Mathematics
Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Maths for Computing 1
Develop relevant mathematics skills to solve basic computing related problems.

Maths for Computing 2
Further develop and apply mathematical skills used to solve a range of problems in a computing context.

Networking
Gain an understanding of the key theories relating to contemporary computer networks.

Organisational Behaviour
Explore the effects of managements, human resources and organisations in a global context.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of areas such as astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Preparatory Science
Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Quantitative Methods for Business
Learn about quantitative techniques as used in the modern business environment.

Reading and Writing 1
 Improve your reading and writing in English for academic study.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.
Skills for Study 2  
Gain useful analytical skills in written and spoken information.

Software Design and Implementation  
Discover the structure of procedural code and object-orientated programme design.

Speaking and Listening 1  
Work on your listening and speaking in English to aid you during your studies.

Speaking and Listening 2  
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3  
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Study Skills Preparation  
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Statistics  
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

UK Society and Culture  
Learn more about the culture and society of the UK, and how it differs from others.

Visual Culture  
Using an annotated visual research journal, evaluate key practitioners and movements and their historical, cultural and political contexts.

Web Development  
Create a high-quality website, incorporating developed web-based content using a web IDE and content management system.

Personal development activities (all courses)  
Culture and activities  
We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills  
Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social network  
Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Advanced Social Science
Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics
Critique research data and apply statistical tools in the analysis of research quality.

Engineering, Science and Society
Explore and debate ethical issues surrounding research and innovation in the sciences.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Philosophy, History and Culture
Explore Western philosophy and its history, and analyse world events in a historical and cultural context.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, execute and report a comprehensive research project. You can choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore concepts of strategic management, and evaluate their impact on businesses.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you’ll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)
Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Personal development activities (all courses)
Culture and activities
We’ll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.
