

## University of Birmingham foundation pathways

# Course information

This booklet contains information about foundation pathways at the University of Birmingham. Choose your preferred degree and discover which pathway you need to take to gain entry. You can also see further information about the pathways, including tuition fees, start dates, entry requirements and module summaries. Progression to your chosen degree is guaranteed when you pass your foundation at the required level.

#### Your path to university

We're working with the University of Birmingham to make sure all students have a study option to help them start a degree at this time, whether that's online or in person.

This means you can study safely and effectively, even if the pandemic affects global travel.

#### Pathways:

**A:** Arts, Social Sciences, Business and Law

**E:** Engineering and Physical Sciences

**L:** Medical, Life and Geo Sciences

**P:** Medicine and Physiotherapy

**S:** Social Sciences, Business and Law

#### Business and Finance

BSc (Hons) Accounting and Finance <sup>3</sup>	<b>A S</b>
BSc (Hons) Business Management <sup>3</sup>	<b>A S</b>
BSc (Hons) Business Management with Communications <sup>2</sup>	<b>A S</b>
BSc (Hons) Business Management with Marketing <sup>3</sup>	<b>A S</b>
BSc (Hons) Economics	<b>A S</b>
BSc (Hons) Economics and Politics	<b>A S</b>
BSc (Hons) Money, Banking and Finance	<b>A S</b>

#### Computing

BSc (Hons) Artificial Intelligence and Computer Science	<b>E</b>
BSc (Hons) Computer Science	<b>E</b>

#### Education

BA (Hons) Education	<b>A S</b>
BA (Hons) Education and Sociology	<b>A S</b>

#### Engineering

BEng (Hons) Aerospace Engineering	<b>E</b>
BEng (Hons) Chemical Engineering	<b>E</b>
BEng (Hons) Civil and Railway Engineering	<b>E</b>
BEng (Hons) Civil Engineering	<b>E</b>
BEng (Hons) Electrical and Railway Engineering	<b>E</b>
BEng (Hons) Electronic and Electrical Engineering	<b>E</b>
BEng (Hons) Engineering	<b>E</b>
BEng (Hons) Materials Science and Engineering	<b>E</b>
BEng (Hons) Mechanical and Materials Engineering	<b>E</b>
BEng (Hons) Mechanical Engineering	<b>E</b>
BEng (Hons) Mechanical Engineering (Automotive)	<b>E</b>
BEng (Hons) Mechatronic and Robotic Engineering	<b>E</b>
BSc (Hons) Nuclear Science and Materials	<b>E</b>

#### Law

LLB (Hons) International Law and Globalisation	<b>A S</b>
LLB (Hons) Law	<b>A S</b>
LLB (Hons) Law with Business Studies	<b>A S</b>
LLB (Hons) Law with Criminology	<b>A S</b>
LLB (Hons) Law with French Law	<b>A S</b>
LLB (Hons) Law with German Law	<b>A S</b>

#### Mathematics

BSc (Hons) Mathematical Economics and Statistics	<b>A S</b>
BSc (Hons) Mathematics	<b>E</b>
BSc (Hons) Mathematics and Computer Science	<b>E</b>
BSc (Hons) Mathematics with Business Management	<b>E</b>

#### Music and Performing Arts

BA (Hons) Drama and Theatre Arts	<b>A S</b>
BMus (Hons) Music	<b>A S</b>

#### Science and Health

BSc (Hons) Biochemistry	<b>L</b>
BSc (Hons) Biochemistry (Genetics)	<b>L</b>
BSc (Hons) Biological Sciences	<b>L</b>
BSc (Hons) Biological Sciences (Genetics)	<b>L</b>
BSc (Hons) Biological Sciences (Zoology)	<b>L</b>
BSc (Hons) Biomedical Science	<b>L</b>
BSc (Hons) Chemistry	<b>E</b>
BSc (Hons) Chemistry with Business Management	<b>E</b>
BSc (Hons) Environmental Science	<b>L</b>
BSc (Hons) Geology	<b>L</b>
BSc (Hons) Geology and Physical Geography	<b>L</b>
BSc (Hons) Human Biology	<b>L</b>
BSc (Hons) Human Neuroscience	<b>L</b>
BSc (Hons) Medical Biochemistry	<b>L</b>
MBChB (Hons) Medicine and Surgery <sup>2 3</sup>	<b>P</b>
BNurs (Hons) Nursing - Adult <sup>3</sup>	<b>L</b>
BSc (Hons) Palaeontology and Geology	<b>L</b>
MPharm (Hons) Pharmacy <sup>1</sup>	<b>L</b>
BSc (Hons) Physics	<b>E</b>
BSc (Hons) Physics and Astrophysics	<b>E</b>
BSc (Hons) Physics with Particle Physics and Cosmology	<b>E</b>
BSc (Hons) Physiotherapy <sup>3</sup>	<b>P</b>
BSc (Hons) Psychology	<b>L</b>
BSc (Hons) Sport, Exercise and Health Sciences	<b>L</b>
BSc (Hons) Sport, Physical Education and Coaching Science	<b>L</b>

## Social Science and Humanities

BA (Hons) Ancient and Medieval History	<b>A S</b>
BA (Hons) Ancient History	<b>A S</b>
BA (Hons) Anthropology and African Studies	<b>A S</b>
BA (Hons) Anthropology and Classical Literature & Civilisation	<b>A S</b>
BA (Hons) Anthropology and History	<b>A S</b>
BA (Hons) Anthropology and Politics	<b>A S</b>
BSc (Hons) Applied Golf Management Studies	<b>L</b>
BA (Hons) Archaeology & Ancient History and History	<b>A S</b>
BA (Hons) Archaeology and Ancient History	<b>A S</b>
BA (Hons) Archaeology and Anthropology	<b>A S</b>
BA (Hons) Classical Literature and Civilisation	<b>A S</b>
BA (Hons) Classical Literature & Civilisation and Philosophy	<b>A S</b>
BA (Hons) Criminology	<b>A S</b>
BA (Hons) Drama and English	<b>A S</b>
BA (Hons) English	<b>A S</b>
BA (Hons) English and Classical Literature & Civilisation	<b>A S</b>
BA (Hons) English and Creative Writing	<b>A S</b>
BA (Hons) English and Film	<b>A S</b>
BA (Hons) English and History	<b>A S</b>
BA (Hons) English and History of Art	<b>A S</b>
BA (Hons) English and Philosophy	<b>A S</b>
BA (Hons) English Language	<b>A S</b>
BA (Hons) English Language and Literature	<b>A S</b>
BA (Hons) Geography	<b>A S</b>
BSc (Hons) Geography	<b>A S</b>
BSc (Hons) Geography and Urban & Regional Planning	<b>A S</b>
BA (Hons) History	<b>A S</b>
BA (Hons) History and History of Art	<b>A S</b>
BA (Hons) History and Philosophy	<b>A S</b>
BA (Hons) History and Theology	<b>A S</b>
BA (Hons) History of Art	<b>A S</b>
BA (Hons) International Development and Politics	<b>A S</b>
BA (Hons) International Relations	<b>A S</b>
BA (Hons) International Relations and Development	<b>A S</b>
BA (Hons) International Relations with Economics	<b>A S</b>
BA (Hons) Liberal Arts and Science Programme	<b>A S</b>
BSc (Hons) Liberal Arts and Science Programme	<b>L</b>
MArt (Hons) Liberal Arts and Science Programme <sup>1</sup>	<b>A S</b>
MSci (Hons) Liberal Arts and Science Programme <sup>1</sup>	<b>L</b>
BA (Hons) Modern Languages <sup>1</sup>	<b>A S</b>
BA (Hons) Modern Languages and English <sup>1</sup>	<b>A S</b>
BA (Hons) Modern Languages and History <sup>1</sup>	<b>A S</b>
BA (Hons) Modern Languages and Music <sup>1</sup>	<b>A S</b>
BA (Hons) Modern Languages with Business Management <sup>1</sup>	<b>A S</b>
BA (Hons) Modern Languages with History of Art <sup>1</sup>	<b>A S</b>
BA (Hons) Philosophy	<b>A S</b>
BA (Hons) Philosophy, Religion and Ethics	<b>A S</b>
BA (Hons) Policy, Politics and Economics	<b>A S</b>
BA (Hons) Political Economy	<b>A S</b>
BA (Hons) Politics	<b>A S</b>
BA (Hons) Politics and International Relations	<b>A S</b>
BA (Hons) Politics, Religion and Philosophy	<b>A S</b>
BSc (Hons) Psychology in Education	<b>A S</b>
BA (Hons) Social Policy	<b>A S</b>
BA (Hons) Social Policy and Criminology	<b>A S</b>
BA (Hons) Sociology	<b>A S</b>
BA (Hons) Sociology and Criminology	<b>A S</b>
BA (Hons) Theology and Religion	<b>A S</b>

# Arts, Social Sciences, Business and Law

## Foundation Pathway

2/2

### Your foundation pathway options for degree entry in September 2022

Minimum English level: IELTS score*	Tuition fees	Course start	Course end	Course type
<b>&gt; For students with IELTS 5.5 in all skills (or accepted equivalent) or above</b>				
<b>5.5 overall</b> with no less than 5.5 in any skill†	£19,740	September 2021	August 2022	You'll take a 1-year foundation as part of an integrated study plan that also includes your degree, all on a single CAS.
<b>&gt; For other students‡</b>				
<b>5.5 overall</b> with no less than 5.0 in any skill	£19,740	September 2021	August 2022	You'll take a separate foundation year leading to a degree, with your initial CAS covering your foundation year only.

Don't quite meet the IELTS requirements? Get in touch, and we'll help you find a suitable study option.

### Your course modules

You will take four of these subject modules to fit your degree:§

- > Business and the Market
- > Critical Introduction to Law and Legal Skills
- > Empire, Migration and Diversity
- > Politics in a Changing World
- > Quantitative Methods for Business and Economics

**Learn more about modules:** you'll find module summaries later in this booklet.

### English language and academic skills support

You will also study one of the following modules matched to your English language level.

#### Students with IELTS 5.5 to 6.0 (or equivalent) will take:

- > Academic English and Study Skills

#### Students with IELTS 6.5 to 7.0 (or equivalent) will take:

- > Advanced Academic English and Study Skills

#### Students with IELTS 7.5 or above (or equivalent) will take:

- > Advanced Academic Skills

\* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: [kaplanpathways.com/uk/ielts/](https://kaplanpathways.com/uk/ielts/)

† English requirement exceptions: the following progression degrees require a higher English language level for entry to the foundation pathway: English Language, English Literature and Law (UKVI IELTS 6.0 with at least 5.5 in all skills).

‡ Subject exceptions: English Language, English Literature and Law progression degrees are not available for students on the separate, non-integrated foundation.

§ Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: [kaplanpathways.com/birmingham-foundation/ug-degrees](https://kaplanpathways.com/birmingham-foundation/ug-degrees)

§ For some degrees, the University will require you to take particular modules.

**Your foundation pathway options for degree entry in September 2022**

Minimum English level: IELTS score*	Tuition fees	Course start	Course end	Course type
<b>&gt; For students with IELTS 5.5 in all skills (or accepted equivalent) or above</b>				
<b>5.5 overall</b> with no less than 5.5 in any skill	£21,240	January 2022	August 2022	You'll take a 1-year foundation as part of an integrated study plan that also includes your degree, all on a single CAS.
	£21,240	September 2021	August 2022	
<b>&gt; For other students</b>				
<b>5.5 overall</b> with no less than 5.0 in any skill	£21,240	January 2022	August 2022	You'll take a separate foundation year leading to a degree, with your initial CAS covering your foundation year only.
	£21,240	September 2021	August 2022	

Don't quite meet the IELTS requirements? Get in touch, and we'll help you find a suitable study option.

**Your course modules**

You will take eight of these subject modules to fit your degree:<sup>§</sup>

- > Calculus
- > Elementary Computer Programming
- > Foundation Electronic and Electrical Engineering
- > Group Project
- > Individual Project
- > Introductory Inorganic Chemistry
- > Introductory Organic Chemistry
- > Materials
- > Mathematics I
- > Mathematics II
- > Mechanics
- > Science and Engineering Laboratories
- > Statistics and Data
- > Waves

**Learn more about modules:** you'll find module summaries later in this booklet.

**English language and academic skills support**

You will also study one of the following modules matched to your English language level.

**Students with IELTS 5.5 to 6.0 (or equivalent) will take:**

- > Academic English and Study Skills

**Students with IELTS 6.5 to 7.0 (or equivalent) will take:**

- > Advanced Academic English and Study Skills

**Students with IELTS 7.5 or above (or equivalent) will take:**

- > Advanced Academic Skills

**Advanced Study Skills in the Biological Sciences**

This module focuses on introducing students to the academic skills that are needed in the biological sciences (e.g. writing laboratory reports, presentation skills, group work), as well as the underpinning elements of experimental design and data analysis.

**Business and the Market**

This module focuses on the relationship between markets and companies under different competitive conditions. How do markets work and differ, and why do these differences matter?

**Calculus**

This module further develops mathematical methods around calculus.

**Critical Introduction to Law and Legal Skills**

This module will enable students to develop a sound foundational understanding of the structure and practice of key domestic and international law fields. As part of this overall aim, students will be introduced to core legal skills such as the analysis of statutes, treaties and case-law, critical thinking and problem solving.

**Earth and Environmental Sciences**

This module will examine the evolution of Earth and its environments; from the formation and composition of the Earth, to modern environmental change. We will explore plate tectonics, earthquakes and volcanoes, the formation of the oceans and atmosphere, and the co-evolution of life and Earth's environments. The course will comprise both lectures and practical classes, and will introduce rock and mineral identification, and ancient and modern environmental data.

**Elementary Computer Programming**

This module introduces basic concepts of computer programming in a procedural language. You will gain practical experience in programming, use some of the basic structures of concepts of procedural programming and have an insight into some of the capabilities and limitations of programming.

**Empire, Migration and Diversity**

This module is designed to provide students with an introductory taste of key themes in modern history, literature and theology, with a particular focus on empire, migration and diversity. The whole module has been designed as a showcase with which to introduce students to the Humanities in a way that will speak to current issues, including those that will resonate with the students themselves, all while taking a decolonised approach.

**Foundation Electronic and Electrical Engineering**

This module aims to develop basic knowledge and skills relevant to electricity and magnetism.

**Group Project**

In this module you will work in a multidisciplinary team to design and build a device achieve an objective e.g map part of the green heart, 3D scan an object.

**Individual Project**

The Individual Project is a subject specific research project linked to your intended discipline that you intend to progress to at the end of the foundation year. It will enable you to develop and demonstrate a deeper technical knowledge and understanding of a specific topic.

**Introductory Inorganic Chemistry**

This module aims to develop a number of fundamental concepts associated with the discipline of Chemistry. This module introduces fundamental features of bonding, before extending towards compounds, including concepts of geometry and oxidation states.

**Introductory Organic Chemistry**

This module aims to develop knowledge and skills in basic organic chemistry. Topics you will study include: nomenclature, isomerism, arrow-pushing mechanisms, reactivity of sp, sp<sup>2</sup> and sp<sup>3</sup> carbon centres and basic organic reaction schemes.

**Introduction to Health and Social Care**

This module introduces students to fundamental aspects of health and social care practice, within a UK context. Students will be introduced to themes, such as law, ethics, research, numeracy, professional regulation, health and social care structures within the UK and principles and prevention of cross infection.

**Living Organisms**

In this module students will learn the basis of what organisms are, how they behave and how they are adapted to their environment. Teaching includes lectures, group work, laboratory practicals and a zoo trip that forms the basis of a mini project that includes data collection, analysis and interpretation of results. Assessment is based on exams, in-course assessment and practical write-ups including extended essays.

**Materials**

In this module you will be introduced to some of the basic structures of matter and how these structures affect material properties and their behaviour and uses in science and engineering.

**Mathematics I**

This module is aimed at developing your confidence and knowledge in basic mathematical techniques and skills. Topics you will study include: indices and logarithms; basic algebra; elementary geometry; trigonometry functions; vectors; and an introduction to differentiation and integration.

**Mathematics II**

This module builds on the knowledge and skills developed in the Mathematics I module. It will cover topics associated with functions and numerical methods.

**Mechanics**

The aim of this module is to develop a basic understanding of the principles of mechanics

**Molecular and Cellular Biology**

This module introduces key concepts in cell and molecular biology, including cell structure and function, and the basic concepts in genetics and biochemistry.

**Politics in a Changing World**

This module will introduce you to the main issues and debates in contemporary international and global affairs and the changing role and position of nation-states in an increasingly globalised world.

**Quantitative Methods for Business and Economics**

While this module has a mathematical foundation, it is not simply about developing your mathematical skills. Rather, the purpose of the module is to show you how you can use these skills to improve your understanding of business problems and to help you make business decisions more effectively.

**Science and Engineering Laboratories**

This module introduces you to work within laboratories and explores a series of scientific experiments, developing an understanding of the experimental method and the impact of scientific discoveries.

**Statistics and Data**

In this module you will cover statistical analysis of information and data, how to present different data sets, along with how to obtain and test results from a STEM (science, technology, engineering and mathematics) context.

**Waves**

This module covers the fundamental concepts of wave motion.

This publication has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publishing, but changes (for example to course content) are likely to occur given the interval between publishing and commencement of the course. It is therefore very important to check the website or contact us for any updates before you apply. Once you have applied, any change which impacts the terms and conditions of your offer or a significant part of your programme will be communicated to you.

Kaplan International Pathways works in partnership with the University of Birmingham to provide application counselling and admissions support to international students. Kaplan International Pathways is a trading name of Kaplan International Colleges UK Limited, company no. 05268303. Registered in England. Registered address: 2nd Floor, Warwick Building, Kensington Village, Avonmore Road, London, W14 8HQ.
