## MODULE SUMMARIES – DETAILS OF WHAT YOU’LL STUDY

### **Accounting and Finance for Managers**

Learn about the legal principles that affect modern businesses, including contract law and company law.

### **Applied Projects**

Apply key academic skills to your subject learning in other areas of your programme.

### **Economics**

Gain an understanding of macro and micro-economics, and explore current trends and issues in the field.

### **English for Academic Purposes**

Develop your English to the level you need for university study, and to really get involved in academic discussions.

### **Entrepreneurship and Business Development**

Explore how to start and nurture a business, how to develop commercial ideas and how to present a business plan.

### **Food and Drink Operations**

Learn about preparing items, the principles of food production, and gain practical experience in the culinary arts studio.

### **Marketing in the Operational Context**

Gain an understanding of international business processes, and the effects of marketing activities on organisations.

### **Organisational Behaviour**

Explore the fundamentals of organisational behaviour, and trends in organisational environments, structures and designs.

### **Tourism**

Explore the forces that affect the travel and hospitality industries, and the economic, social and environmental impact they have.

---

## EXTRA MODULES FOR 2.5 AND 3-TERM COURSES

### **Critical Reading, Writing and Reasoning for Higher Education**

Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

### **Digital Applications**

Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

### **English for Academic Study 3**

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

### **Independent and Collaborative Study**

Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

### **Preparatory Mathematics**

Develop your numeracy skills, including algebra, geometry and graphs.

### **Preparatory Science**

Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

### **Reading and Writing 3**

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

### **Speaking and Listening 3**

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

### **UK Society and Culture**

Learn more about the culture and society of the UK, and how it differs from others.

## PERSONAL DEVELOPMENT ACTIVITIES (ALL COURSE LENGTHS)

### **Digital and employability skills**

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You will receive help in making the most of your creativity, improving your communication and developing your digital skills. We will also help you build a CV, portfolio and online profile to empower you after you graduate.

### **Social network**

Forming a strong social network can be hugely beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional organisations, and network with students and industry professionals: something that can be really beneficial when you go on to start your career.

### **Culture and activities**

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.
