---

## Module summaries for terms 1 and 2

### **Business Organisations and Management**

Examine key concepts in management theory and practice, and discuss issues relating to management in modern organisations.

### **Contemporary Global Issues**

Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

### **English for Academic Purposes**

Develop your English to the level you need for university study, and to really get involved in academic discussions.

### **Entrepreneurship**

Familiarise yourself with varied concepts of creativity, entrepreneurship and innovation, and how to apply them in business. Students who successfully complete this module will receive a special Certificate of Achievement from the Institute of Enterprise and Entrepreneurs (IoEE).

### **Extended Project**

Learn how to plan, carry out and report an extended project; you can choose a project topic that matches your degree and career goals, and personal interests.

### **Logic and Critical Thinking**

Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

---

## Module summaries for terms 3 and 4

### **Accounting and Finance for Managers**

Learn about the legal principles that affect modern businesses, including contract law and company law.

### **Applied Projects**

Apply key academic skills to your subject learning in other areas of your programme.

### **Economics**

Gain an understanding of macro and micro-economics and explore current trends and issues in the field.

### **English for Academic Purposes**

Further develop your English to the level you need for your degree, and to fully participate in academic discussions.

### **Management Accounting and Financial Analysis**

Explore management and financial accounting issues, as well as process costing, pricing and profitability analysis.

### **Marketing in the Operational Context**

Gain an understanding of international business processes, and the effects of marketing activities on organisations.

### **Organisational Behaviour**

Explore the fundamentals of organisational behaviour, and trends in organisational environments, structures and designs.

### **Quantitative Methods for Business**

Enhance your understanding of mathematics and quantitative techniques, and how to apply them to accounting, finance and management.

## Personal development activities

### Digital and employability skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You will receive help in making the most of your creativity, improving your communication and developing your digital skills. We will also help you build a CV, portfolio and online profile to empower you after you graduate.

### Social networking

Forming a strong social network can be hugely beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional organisations, and network with students and industry professionals: something that can be really beneficial when you go on to start your career.

### Culture and activities

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture or develop your wider subject knowledge and understanding of related industries.

---
