4.5 overall with no less than 4.0 in any skill	3 terms	£18,960	June 2021	June 2022	1 term of Extended English and Skills modules
4.0 overall with no less than 4.0 in any skill	3.5 terms	£22,120	April 2021	June 2022	1.5 terms of Extended English and Skills modules
	4 terms	£24,360	March 2021	June 2022	2 terms of Extended English and Skills modules

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham/ug-degrees

Your course length: this is influenced by your UKVI IELTS score that you submit as part of the admissions process. Soon after you arrive at the College, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

Common modules for 2-term courses:

these are taken by all students

- > English for Academic Purposes
- > Extended Project

You will also take 2 or 3 of the following modules that fit your degree and career goals[†]:

- > Contemporary Global Issues
- > Entrepreneurship
- > Historical Perspectives
- > Intermediate Mathematics
- > Logic and Critical Thinking
- > Mathematics
- > People, Culture and Society
- > Statistics

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

Extra support: for courses of over 2 terms, you will also take Enhancement modules or Extended English and Skills modules (depending on your IELTS score) before the modules to the left.

Students with UKVI IELTS 5.5: you can study a 2.5 or 3-term course with Enhancement modules to maximise your university preparation

- > Critical Reading, Writing and Reasoning for Higher Education
- > Independent and Collaborative Study

Plus 2 of these 4 modules:

- > Digital Applications
- > Preparatory Mathematics
- > Preparatory Statistics
- > UK Society and Culture

Students with less than UKVI IELTS 5.5: you will study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 5.0 will typically take:

- > English for Academic Study 3
- > Independent and Collaborative Study
- > Reading and Writing 3
- > Speaking and Listening 3

Students with UKVI IELTS 4.5 will typically take:

- > English for Academic Study 2
- > Reading and Writing 2
- > Speaking and Listening 2
- > Study Skills Preparation

Students with UKVI IELTS 4.0 will typically take:

- > English for Academic Study 1 + English for Academic Study 2
- > Reading and Writing 1 + Reading and Writing 2
- > Speaking and Listening 1 + Speaking and Listening 2
- > Study Skills Preparation

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Minimum English level: UKVI IELTS score	Course length	Course tuition	Course start	Course end	Extra support
> Your Foundation Certificate options for degree entry in September 2021					
5.5 overall with no less than 5.0 in any skill	2 terms	£18,920	September 2020	June 2021	
		£18,100	January 2021	July 2021	

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham/ug-degrees

Common modules for 2-term courses:
these are taken by all students

- > Computer Methods
- > Foundation Mathematics 1 and 2
- > Foundation Mechanics
- > Properties of Matter / Vibrations and Waves
- > Study Skills
- > English for Engineering and Science (if you need English language support)

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

University-taught: this course is delivered on campus by the University's own staff, rather than at the International College.

Learn more about modules: you'll find module summaries later in this booklet.

If you're on the Computer Science pathway, you'll also study:

- > Computer Modelling
- > Electrical Circuit Principles
- > Electricity and Magnetism

If you're on the Engineering pathway, you'll also study:

- > Electrical Circuit Principles
- > Electricity and Magnetism
- > Further Foundation Mechanics

If you're on the Physics and Maths pathway, you'll also study:

- > Further Foundation Mechanics
- > Molecules on the Move
- > The Universe

Minimum English level: UKVI IELTS score	Course length	Course tuition	Course start	Course end	Extra support

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Biology

Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Chemistry

Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Computer Methods

Learn basic programming techniques, and study data structures in MATLAB.

Computer Modelling

Use MATLAB to solve engineering and mathematical problems.

Contemporary Global Issues

Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Critical Reading, Writing and Reasoning for Higher Education

Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments.

Digital Applications

Develop your digital skill set, helping you use digital tools to support academic study, including using and citing digital sources.

Electrical Circuit Principles

Learn about circuits and circuit analysis, as well as electrical resonance.

Electricity and Magnetism

Study principles of electricity and magnetism, as well as inductors, capacitors and semiconductors.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 1

Gain a better understanding of how English is used in academia.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

English for Engineering and Science

Develop your English skills, including for giving presentations and lab reports.

Entrepreneurship

Familiarise yourself with concepts of creativity, entrepreneurship and innovation, and how to apply them in business.

Extended Project

Learn how to plan, carry out and report an extended project. Choose a topic that matches your degree and career goals, and personal interests.

Foundation Mathematics 1 and 2

Explore some of the key ideas in mathematics, geometry and algebra.

Foundation Mechanics

Learn about scalars and vectors in mechanics, and the response of rigid structures to imposed forces.

Further Foundation Mechanics

Develop your understanding of the behaviour of structures under simple and circular motion, and how to evaluate experimental data.

Historical Perspectives

Gain an understanding of the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Intermediate Mathematics

Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Logic and Critical Thinking

Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Mathematics

Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Molecules on the Move

Discover the thermal and mechanical properties of matter.

People, Culture and Society

Learn about the history, theories and issues that relate to human culture and society around the world.

Physics

Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics

Develop your numeracy skills, such as algebra, geometry and graphs.

Preparatory Science

Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics

Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Properties of Matter / Vibrations and Waves

Explore atomic structures and the behaviours of atoms, as well as the physical explanations of vibrations and waves.

Reading and Writing 1

Improve your reading and writing in English for academic study.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 1

Work on your listening and speaking in English to aid you during your studies.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Statistics

Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills

Develop important academic skills for degree study, including for research and presentation.

Study Skills Preparation

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

The Universe

Gain an understanding of astronomy and cosmology, gravitational fields, stellar evolution, and the nature of the universe.

UK Society and Culture

Learn more about the culture and society of the UK, and how it differs from others.

Personal development activities (all courses)**Culture and activities**

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Digital and employability skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social network

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

Academic entry requirements: for all course options above, you need to have completed an undergraduate degree or equivalent.

For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder:

kaplanpathways.com/nottingham/pg-degrees

Your course length: this is influenced by your UKVI IELTS score that you submit as part of the admissions process. Soon after you arrive at the College, we'll check your English and academic level again to make sure you're on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

Common modules for 2-term courses:

these are taken by all students

- > English for Academic Purposes
- > Extended Project

You will also take 2 of the following modules to prepare for postgraduate study[†]:

- > Advanced Social Science
- > Philosophy, History and Culture
- > Project Management
- > UK Society and Culture (Advanced)

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

Extra support: for courses of over 2 terms, you will also take Extended English and Skills modules before the modules to the left.

Students on a 2.5 or 3-term course will take:

- > English for Academic Study 3
- > Independent and Collaborative Study
- > Reading and Writing 3
- > Speaking and Listening 3

Students on a 3.5 or 4-term course will take:

- > English for Academic Study 2 + English for Academic Study 3
- > Independent and Collaborative Study
- > Reading and Writing 2 + Reading and Writing 3
- > Speaking and Listening 2 + Speaking and Listening 3
- > Study Skills Preparation

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

[†] For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Advanced Social Science

Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics

Critique research data and apply standard statistical tools for the analysis of research quality.

Engineering, Science and Society

Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English, European and International Law

Learn about legal principles in English, European and International law.

English for Academic Purposes

Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2

Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3

Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study

Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Philosophy, History and Culture

Explore Western philosophy and its history, and analyse events and developments in your degree in a historical and cultural context.

Project Management

Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2

Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3

Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project

Plan, carry out and report a thorough research project. Choose a topic that matches your degree and career goals, and personal interests.

Speaking and Listening 2

Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3

Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management

Explore key concepts of strategic management, and evaluate their impact on businesses and their operations.

Study Skills Preparation

Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)

Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Personal development activities (all courses)

Culture and activities

We'll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills

Outside of your academic learning, you'll also be taught skills that will be useful at university and later in life. You'll receive help in making the most of your creativity, improving your communication and developing your digital skills. We'll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social network

Forming a strong social network can be very beneficial, even if it's just to discuss and debate ideas. Not only will you get to know your classmates, you'll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

Notes

Pre-Doctorate

A Pre-Doctorate will help you prepare for an Engineering-related doctoral degree in the UK. You're guaranteed an interview with the University of Nottingham's highly-respected Faculty of Engineering if you're on track to successfully complete your course.
