I think it’s important to consider my students’ interests and needs, so I adapt my lessons to suit different classes. I ask students to prepare for class by doing some research beforehand as I believe this enhances classroom discussions and improves their understanding of a topic. It also helps them to get used to independent study, so that they feel more confident at university.

Shijir from Mongolia is following his path to a University of Westminster degree.

I love living in London. A couple of years ago, my wife came to study at Kaplan and I moved to London with her. That’s how I heard about the opportunity of studying a pathway course and progressing to a UK university.

So, then I decided to follow in her footsteps and study in London myself.

My favourite thing about London is its parks. There are so many of them and they’re really great! It’s where I enjoy spending most of my free time — you can ride a bike, walk around, or just chill out. I would say that Holland Park in west London is my favourite park. It’s smaller and less touristic than somewhere like Hyde Park, so it really makes me feel like a local when I go there.

One of my hobbies is photography. I’ve been taking photos for about 5 years, and I love exploring London with my camera. It allows me to see the city from a different perspective, and it can really change the way I view things.

I love exploring London with my camera.

It’s very calming to walk around with your camera when there is so much going on around you. I like people-watching and street photography, and one of the areas of London I like most for this is King’s Cross.

It’s so easy to get to lots of different places in London. When I’m not studying, I’ll just jump on the Tube and explore the city. The transport is great — it’s safe, quick, and there are 24-hour services, too! I feel very lucky to have the opportunity to live and study in such an amazing city!

Culture and history
If you walk down almost any street in London, you’re likely to find a piece of the city’s history. Whether it’s famous landmarks like Tower Bridge, or markets like Old Spitalfields, there is always something to see, so you’ll never be bored. Many of the city’s museums don’t charge an entry fee, so you can visit as often as you like. For great theatre, go to the annual West End Live festival, where you can see many of London’s musicals for free!

Excellent transport
London’s famous public transport system, including its iconic Underground (known as the “Tube”), makes it easy to travel around. If you want to explore on 2 wheels, you can hire a bike from locations all over London. Or, for a fun train ride with great views, take the Docklands Light Railway (DLR) to Greenwich. With 5 major airports, London is one of the world’s best connected cities, making it the perfect gateway to discover the rest of the UK, Europe and beyond.

Meet Rustam

Rustam from Azerbaijan followed his path from KIC London to a Law degree at the University of Westminster.

My study abroad journey began in 2016 when I moved to the UK and started a pathway course at KIC London.

One of the very first reasons why I decided to study in the UK was because British universities have a rich history and tradition of providing a world-class education. I’m proud to have earned a degree from this country.

My biggest concern when I arrived in London was about my academic English because it wasn’t at a high enough level. I only had 4 months to pass an IELTS test before I could start my Foundation Certificate, and time was running out.

Thankfully, with hard work and determination, I managed to pass my IELTS test with a good score, and start the next chapter of my life at KIC London.

On my pathway course, I learnt about political science, sociology and history, as well as general legal practices in the UK and the European Union. All of this gave me a broad knowledge base that I went on to expand at the University of Westminster.

Studying abroad helped me gain a thorough understanding of the UK legal system. Not only this, it allowed me to experience an entirely different culture, learn a new language, broaden my horizons, and expand my professional network.

I’m extremely grateful to both KIC London and the University of Westminster for helping me develop my skills and gain valuable experience that will help me in the future.

After graduating, I completed a master’s degree in Sweden. I am now Founder and Managing Director of an immigration consultancy, providing all types of services concerning travel and business visas, and work and study permits in the UK, Sweden and other parts of Europe.

This is my path so far.
