Accelerated Pathways
Intensive 2-term Foundation Courses 2018-19

kaplanpathways.com
Introducing Accelerated Pathways

You now have the option to prepare for university in the UK on one of our shorter, intensive 2-term courses. These courses offer an accelerated version of our standard courses, with the same first-class teaching and support that Kaplan Pathways is renowned for.

### Accelerated options available

<table>

Science and Engineering: £16,580 | £12,230 | £12,920 |

* Progression is guaranteed when you pass your Foundation Certificate at the required level.
Is an accelerated course the right choice for me?

If you cannot enrol in time for the September or January intakes, but are prepared to work hard on an intensive course, then the accelerated option may be for you. Our College staff will work with you to ensure that you have all the skills, knowledge and confidence to succeed.

Benefits of the accelerated course

Flexible start dates
Our standard 2-term courses begin in September and January, while the accelerated options begin in October and March. You are encouraged to join the September or January intakes, so you have more time to settle into life in the UK and at the College, however, if you are unable to enrol in time, the accelerated courses are a useful alternative.

Visa options
As the accelerated pathway courses lasts just 6 months, you might, depending on your circumstances, qualify for one of the following, instead of a Tier 4 (General) Student Visa:
- Short-term Study Visa (STSV)
- Electronic Visa Waiver (EVW) scheme

Please contact your Kaplan representative for more information.

How is the Accelerated Pathway different?
- Weekly individual tutorial (these take place every 2 weeks on the standard course)
- Additional session in core subjects every week
- Additional language skills session every week
- Fewer holidays during the academic year

Teaching that transforms
We are committed to your success. On an accelerated pathway course, you can expect the same support as all Kaplan students:
- Testing on arrival in areas such as maths, to ensure that we can assist in getting you to the correct level for your subjects
- Assessment throughout your course, helping us to identify the extra support that will be most useful to you
- A range of practical activities to further your learning; these might include visits to company offices and guest lectures
- A ‘Welcome Week’ induction where you’ll receive essential information about living and studying in the UK
- Social activities designed to help improve your language skills and confidence, while also meeting new friends
- Drop-in sessions with teachers, where you can discuss personal study or homework
- 1:1 tutorial sessions on key study areas in which you wish to improve
Contact us
If you are interested in an Accelerated Pathway course, or want to know more about the STSV and EVW scheme, get in touch with your Kaplan representative, or contact us using the details below.
