Oxford and Cambridge are two of the best universities in the world, with an international reputation for academic excellence. Winning a place to study there is a comprehensive and competitive process. Around 6,600 undergraduates start their first years at Oxford or Cambridge every year and with a lot of hard work and preparation you can give yourself the best chance of being one of them.

At MPW, in addition to our world-class tuition and personal tutor system, we offer help to prospective Oxbridge candidates in four main areas:

- Details of what studying at an Oxbridge college is really like
- Preparing for and making a great impression at interview
- How to write an effective UCAS application, including sample personal statements
- Case studies from students who have been through the Oxbridge application process

Becoming a doctor is an incredibly popular career choice and with around ten applications made for every university place, competition is tougher than ever. It’s not enough to have top A level grades and evidence of work experience – to be in with a chance you need a sound knowledge of current medical issues and be able to demonstrate true commitment to a career in medicine.

Aspiring medical students are provided with additional support in four main areas:

- Personal statement review
- Interview practice
- Expert tuition to prepare for specialist tests
- Additional lecture series to cover topical issues

Aspiring medics at MPW are automatically enrolled onto our preparation programme free of charge.

If you are prepared to show commitment, MPW will support you all the way. Attention to the individual, rigorous teaching and genuinely good pastoral care. Rebecca, from Australia. Now studying Medicine at the University of Leicester.

Easter Revision

MPW offers a broad range of courses and intensive, exam-oriented tuition. It is this expertise which forms the basis of our Easter Revision courses.

Our tutors are all highly qualified graduates with considerable teaching experience. Many are GCSE or A level examiners and are therefore very knowledgeable of the requirements and approaches demanded by the various examining boards.

Small classes are essential in order to provide the close attention which each student requires. There is an absolute maximum of nine students in a group, with the average usually five or six.

We focus on the following aspects which, in our experience, are central to students’ confidence and academic performance:

- Improvement of study and revision skills
- Courses are board-and syllabus-specific
- Intensive revision of core topics
- Emphasis on understanding rather than learning
- Development of appropriate question-answering techniques
- Improvement of study and revision skills
