University of Nottingham International College

Course information

This booklet contains information about the pathway courses that lead to a University of Nottingham degree. Choose your preferred degree, and discover which course you need to take to gain entry. You can also see further information about the courses, including tuition fees, start dates, entry requirements and module summaries.

Undergraduate pathways
Progression degrees

Foundation Certificate:
Business, Law and Social Sciences
Engineering and Physical Sciences
Science

Module summaries

Postgraduate pathways
Progression degrees

Pre-Master’s:
Business and Management
Law and Social Sciences
Science and Engineering

Module summaries

Pre-Doctorate:
Pre-Doctorate course information

Module summaries

For pathway courses starting between: September 2021 and July 2022
Leading to degree entry in: 2022 or 2023
Published: February 2021
Undergraduate course information

**Choose your undergraduate degree**

| Foundation Certificate | Business, Law and Social Sciences | 06 |
| Science | 10 |

**Undergraduate module summaries**

| Building and Architecture |
| Business and Finance |
| Computing |
| Engineering |

### Environment and Agriculture
- BSc (Hons) Agricultural and Crop Science
- BSc (Hons) Agricultural and Livestock Science
- BSc (Hons) Agricultural Business Management (Integrated)
- BSc (Hons) Agriculture
- MEng (Hons) Architecture and Environmental Design
- BSc (Hons) Environmental Biology
- BSc (Hons) Environmental Geoscience
- BSc (Hons) Environmental Science
- MSc (Hons) Environmental Science
- BA (Hons) Geography
- BSc (Hons) Geography with Business

### Law
- BA (Hons) Law
- LLB (Hons) Law

### Marketing and Media
- BA (Hons) Film and Television Studies
- BA (Hons) Film and Television Studies and American Studies
- BA (Hons) International Media and Communications Studies

### Mathematics
- BSc (Hons) Financial Mathematics
- BSc (Hons) Mathematical Physics
- BSc (Hons) Mathematics
- MA (Hons) Mathematics
- BSc (Hons) Mathematics (International Study)
- BSc (Hons) Mathematics and Economics

### Music and Performing Arts
- BA (Hons) Music

### Science and Health
- BSc (Hons) Animal Science
- BSc (Hons) Biochemistry
- MSc (Hons) Biochemistry
- BSc (Hons) Biochemistry and Genetics
- MSc (Hons) Biochemistry and Genetics
- BSc (Hons) Biochemistry and Molecular Medicine
- MSc (Hons) Biochemistry and Molecular Medicine
- BSc (Hons) Biology
- MSc (Hons) Biology
- BSc (Hons) Biotechnology
- BSc (Hons) Cancer Sciences
- BSc (Hons) Chemistry
- MSc (Hons) Chemistry
- MSc (Hons) Chemistry with an International Study Year
- BSc (Hons) Food Science
- BSc (Hons) Food Science and Nutrition
- BSc (Hons) Genetics
- MSc (Hons) Genetics
- MSc (Hons) Medical Physics
- BSc (Hons) Medical Physiology and Therapeutics
- BSc (Hons) Medical and Biological Chemistry
- MSc (Hons) Medical and Biological Chemistry
MSci (Hons) Medicinal and Biological Chemistry with an Assessed Year in Industry

BSc (Hons) Microbiology

BSc (Hons) Natural Sciences

MSci (Hons) Natural Sciences

BSc (Hons) Neuroscience

BSc (Hons) Nursing (Adult)

BSc (Hons) Nursing (Mental Health)

MNut (Hons) Nutrition and Dietetics

MSci (Hons) Pharmaceutical Sciences

MPharm (Hons) Pharmacy

MSc (Hons) Pharmacy (with Integrated Pre-registration Scheme)

BSc (Hons) Physics

MSci (Hons) Physics

BSc (Hons) Physics and Philosophy

BSc (Hons) Physics with Astronomy

MSci (Hons) Physics with Astronomy

BSc (Hons) Physics with Medical Physics

MSci (Hons) Physics with Medical Physics

BSc (Hons) Physics with Nanoscience

MSci (Hons) Physics with Nanoscience

BSc (Hons) Physics with Theoretical Astrophysics

MSci (Hons) Physics with Theoretical Astrophysics

BSc (Hons) Physics with Theoretical Physics

MSci (Hons) Physics with Theoretical Physics

BSc (Hons) Physiotherapy

BSc (Hons) Plant Science

BSc (Hons) Zoology

MSci (Hons) Zoology

Social Science and Humanities

BA (Hons) American and Canadian Literature, History and Culture

BA (Hons) American and Canadian Literature, History and Culture (International Study)

BA (Hons) American Studies and History

BA (Hons) American Studies and Latin American Studies

BA (Hons) Ancient History

BA (Hons) Ancient History and Archaeology

BA (Hons) Ancient History and History

BA (Hons) Archaeology

BSc (Hons) Archaeology

BA (Hons) Archaeology and Classical Civilisation

BA (Hons) Archaeology and Geography

BA (Hons) Archaeology and History

BA (Hons) Archaeology and History of Art

BA (Hons) Biblical Studies and Theology

BA (Hons) Classical Civilisation

BA (Hons) Classical Civilisation and Philosophy

BA (Hons) Classics

BA (Hons) Criminology and Social Policy

BA (Hons) Criminology and Sociology

BSc (Hons) Economics

BSc (Hons) Economics and Econometrics

BSc, BSc (Hons) Economics and International Economics

BA (Hons) Economics and Philosophy

BA (Hons) Economics and History

BA (Hons) Economics and International Media and Communications Studies

BA (Hons) Economics and International Media and Communications Studies

BA (Hons) Economics and International Media and Communications Studies

BA (Hons) Economics and International Media and Communications Studies

Footnotes:
1: Available with an additional year abroad
2: 4-year course
3: 5-year course
Common modules taken by all students:

- English for Academic Purposes
- Extended Project

You will also take 2 or 3 of the following modules that fit your degree and career goals:

- Contemporary Global Issues
- Entrepreneurship
- Historical Perspectives
- Logic and Critical Thinking
- Mathematics
- People, Culture and Society
- Statistics

Personal development activities: during your course, you’ll also have activities to build practical, digital and employability skills.

Learn more about modules: you’ll find module summaries later in this booklet.

Minimum English level: UKVI IELTS score*

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed high school at the required level.

For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham/ug-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Common modules taken by all students:
- Computer Methods
- Foundation Mathematics 1 and 2
- Foundation Mechanics
- Properties of Matter / Vibrations and Waves
- Study Skills
- English for Engineering and Science (if you need English language support)

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

University-taught: this course is delivered on campus by the University's own staff, rather than at the International College.

Learn more about modules: you'll find module summaries later in this booklet.

If you're following the Computer Science pathway, you'll also study:
- Computer Modelling
- Electrical Circuit Principles
- Electricity and Magnetism

If you're on the Engineering pathway, you'll also study:
- Electrical Circuit Principles
- Electricity and Magnetism
- Further Foundation Mechanics

If you're following the Physics and Maths pathway, you'll also study:
- Further Foundation Mechanics
- Molecules on the Move
- The Universe

Minimum English level: UKVI IELTS score*

- Your Foundation Certificate options for degree entry in September 2022
  - 5.5 overall with no less than 5.0 in any skill

### Science Foundation Certificate

#### Common modules taken by all students:
- English for Academic Purposes
- Extended Project

You will also take 2 or 3 of the following modules that fit your degree and career goals:
- Biology
- Chemistry
- Contemporary Global Issues
- Mathematics
- Physics
- Statistics

#### Personal development activities:
During your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

#### Extra support:
For courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

**Students with at least UKVI IELTS 5.5:** you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

**Plus 2 of these modules:**
- Digital Applications
- Preparatory Mathematics
- Preparatory Science
- Preparatory Statistics
- UK Society and Culture

**Students with less than UKVI IELTS 5.5:** you will typically study Extended English and Skills modules to improve your English language level and academic skills.

**Students with UKVI IELTS 4.5 or 5.0 will typically take:**
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

**Students with UKVI IELTS 4.0 will typically take:**
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

---

1 For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
University of Nottingham International College
Undergraduate module summaries

Biology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Computer Methods
Learn basic programming techniques, and study data structures in MATLAB.

Computer Modelling
Use MATLAB to solve engineering and mathematical problems.

Contemporary Global Issues
Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and communicate complex ideas in English, and to compose convincing written arguments.

Digital Applications
Develop your digital skill set, helping you use digital tools to support academic study, including using and citing digital sources.

Electrical Circuit Principles
Learn about circuits and circuit analysis, as well as electrical resonance.

Electricity and Magnetism
Study principles of electricity and magnetism, as well as inductors, capacitors and semiconductors.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

English for Engineering and Science
Develop your English skills, including for giving presentations and lab reports.

Entrepreneurship
Familiarise yourself with concepts of creativity, entrepreneurship and innovation, and how to apply them in business.

Extended Project
Learn how to plan, carry out and report an extended project. Choose a topic that matches your degree and career goals, and personal interests.

Further Foundation Mechanics
Develop your understanding of the behaviour of structures under simple and circular motion, and how to evaluate experimental data.

Historical Perspectives
Gain an understanding of the historical context of your chosen degree area, and skills such as researching, evaluating and interpreting sources.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Logic and Critical Thinking
Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Mathematics
Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Properties of Matter / Vibrations and Waves
Explore atomic structures and the behaviours of atoms, as well as the physical explanations of vibrations and waves.

Physics
Gain an understanding of astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics
Develop your numeracy skills, such as algebra, geometry and graphs.

Preparatory Science
Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Properties of Matter / Vibrations and Waves
Explore atomic structures and the behaviours of atoms, as well as the physical explanations of vibrations and waves.

Reading and Writing 2
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills
Develop important academic skills for degree study, including for research and presentation.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you’ll need to succeed at university, such as research methods and using and citing sources.

The Universe
Gain an understanding of astronomy and cosmology, gravitational fields, stellar evolution, and the nature of the universe.

UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

Digital and employability skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV portfolio and online profile to empower you after you graduate.

Social network
Forming a strong social network can be very beneficial, even if it’s just to discuss and debate ideas. Not only will you get to know your classmates, you’ll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

**Academic entry requirements:** for all course options above, you need to have completed an undergraduate degree or equivalent. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/nottingham/pg-degrees

**Your course length:** this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Advanced Social Science
Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics
Critique research data and apply standard statistical tools for the analysis of research quality.

Engineering, Science and Society
Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Philosophy, History and Culture
Explore Western philosophy and its history, and analyse events and developments in your degree in a historical and cultural context.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, carry out and report a thorough research project. Choose a topic that matches your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore key concepts of strategic management, and evaluate their impact on businesses and their operations.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you’ll need to succeed at university, such as research methods and using and citing sources.

UK Society and Culture (Advanced)
Learn more about a range of aspects of British culture, as well as British cultural and social institutions.

Personal development activities (all courses)

Culture and activities
We’ll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social network
Forming a strong social network can be very beneficial, even if it’s just to discuss and debate ideas. Not only will you get to know your classmates, you’ll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.
Pre-Doctorate

A Pre-Doctorate will help you prepare for an Engineering-related doctoral degree in the UK. You’re guaranteed an interview with the University of Nottingham’s highly-respected Faculty of Engineering if you’re on track to successfully complete your course.
