---

**Common modules for 2-term courses**

- these are taken by all students
  - English for Academic Purposes
  - Extended Project

**Students wishing to progress to an Architecture degree will also take:**

- Creative Practice and Portfolio

**You will also take 1 to 3 of the following modules that fit your degree and career goals:**

- Business Organisations and Management
- Contemporary Global Issues
- Entrepreneurship
- Intermediate Mathematics
- Logic and Critical Thinking
- Mathematics
- People, Culture and Society
- Statistics

---

**Personal development activities:**

- during your course, you’ll also have activities to build practical, digital and employability skills.
- Learn more about modules: you’ll find module summaries later in this booklet.

---

**Extra support:**

- for courses of over 2 terms, you will also take Enhancement modules or Extended English and Skills modules (depending on your IELTS score) before the modules to the left.

**Students with UKVI IELTS 5.5:**

- you can study a 2.5 or 3-term course with Enhancement modules to maximise your university preparation
  - Critical Reading, Writing and Reasoning for Higher Education
  - Independent and Collaborative Study

**Plus up to 2 of these 3 modules:**

- Digital Applications
- Preparatory Mathematics
- Preparatory Statistics

**Students with less than UKVI IELTS 5.5:**

- you will study Extended English and Skills modules to improve your English language level and academic skills.

---

**Students with UKVI IELTS 5.0 will typically take:**

- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

**Students with UKVI IELTS 4.5 will typically take:**

- English for Academic Study 2
- Reading and Writing 2
- Speaking and Listening 2
- Study Skills Preparation

**Students with UKVI IELTS 4.0 will typically take:**

- English for Academic Study 1
- English for Academic Study 2
- Reading and Writing 1 + Reading and Writing 2
- Speaking and Listening 1 + Speaking and Listening 2
- Study Skills Preparation

---

**Academic entry requirements:**

- for all course options above, you need to have completed high school at the required level.

**Your course length:**

- this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals.

---

*UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: [kaplanpathways.com/uk/ielts/](kaplanpathways.com/uk/ielts/)

**Architecture students:**

- students progressing to BA (Hons) Architecture can only do so from a 2-term course starting in September or January, and must submit a selection of artwork as part of their application.

**Academic entry requirements:**

- for all course options above, you need to have completed high school at the required level.

**For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder:**

- [kaplanpathways.com/liverpool/ug-degrees](kaplanpathways.com/liverpool/ug-degrees)

University of Liverpool International College

Undergraduate module summaries

1/2

Biology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Organisations and Management
Learn about the public and private sectors, the motivations and finances of companies, and the challenges faced by modern businesses.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Contemporary Global Issues
Explore the big issues facing humanity in the 21st century, and critically evaluate their causes and effects.

Creative Practice and Portfolio
Research the work of selected practitioners in your field, responding to and evaluating their work, in your own illustrative portfolio.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and learn how to compose convincing written arguments.

Digital Applications
Develop your digital skill set, helping you to use digital tools to support your academic study, including using and citing digital sources.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 1
Gain a better understanding of how English is used in academia.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship
Familiarise yourself with varied concepts of creativity, entrepreneurship and innovation, and learn how to apply them in business.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a topic that matches your degree and career goals, and personal interests.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Information Technology
Discover the key concepts of computer science, including data representation and programming languages.

Intermediate Digital Applications
Develop skills in problem-solving and creative practice using a range of software packages appropriate to your field of study.

Intermediate Mathematics
Expand your knowledge of mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Logic and Critical Thinking
Explore the concepts, history and skills relating to logic and critical thinking, and how they apply in real-world contexts.

Mathematics
Develop your mathematical skillset in areas such as algebra, decision maths, probabilities and statistics.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of topics like astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Science
Gain an introduction to core scientific knowledge, and subject-specific language required to study the sciences.

Preparatory Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation
Learn about the public and private sectors, the motivations and finances of companies, and the challenges faced by modern businesses.

Technology
Develop skills in problem-solving and creative practice using a range of software packages appropriate to your field of study.

Uncertainty
Gain an understanding of how uncertainty is used in academia.

University of Liverpool International College

Undergraduate module summaries

2/2

Reading and Writing 1
Improve your reading and writing in English for academic study.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 1
Work on your listening and speaking in English to aid you during your studies.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you’ll need to succeed at university, such as research methods and using and citing sources.

Employability and digital skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it’s just to discuss and debate ideas. Not only will you get to know your classmates, you’ll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.

Personal development activities (all courses)
Culture and activities
We’ll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV, portfolio and online profile to empower you after you graduate.

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed at least 3 years of higher education in a suitable subject. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/liverpool/pg-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

### Extra support:
Extra support: for courses of over 2 terms, you will also take Extended English and Skills modules before the modules to the left.

Students with UKVI IELTS 5.0 will take these additional modules as part of a 2.5 or 3-term course:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.5 will take these additional modules as part of a 3.5 or 4-term course:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

1 For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Common modules for 2-term courses: these are taken by all students
- English for Academic Purposes
- Research Project

You will also take 2 of the following modules to prepare for postgraduate study:
- Advanced Social Science
- Advanced Statistics
- Project Management
- Strategic Management

Personal development activities: during your course, you’ll also have activities to build practical, digital and employability skills.

Learn more about modules: you’ll find module summaries later in this booklet.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Advanced Social Science
Learn about the key theories in social sciences, and their relation to methodologies in the field.

Advanced Statistics
Critique research data and apply standard statistical tools for the analysis of research quality.

Engineering, Science and Society
Gain an awareness of ethical issues and debates surrounding research and innovation in the sciences.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

Elective English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

Elective English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work independently and in teams on an academic task, and practise applying your subject knowledge and study skills.

Organisational Management
Evaluate the key issues, theories and techniques relating to organisational behaviour, environmental analysis and global strategy.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, execute and report an in-depth research project. You can choose a topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore key concepts of strategic management, and evaluate their impact on businesses and their operations.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.

Personal development activities (all courses)
Culture and activities
We’ll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it’s just to discuss and debate ideas. Not only will you get to know your classmates, you’ll also have opportunities to join professional bodies, and network with students and industry professionals. Something that can be really helpful when you go on to start your career.
This publication has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publishing, but changes (for example to course content) are likely to occur given the interval between publishing and commencement of the course. It is therefore very important to check the website or contact us for any updates before you apply. Once you have applied, any change which impacts the terms and conditions of your offer or a significant part of your programme will be communicated to you.

The University of Liverpool International College is operated by Kaplan Liverpool Limited (Company number: 06217892), with registered address: 2nd Floor, Warwick Building, Kensington Village, Avonmore Road, London W14 8HQ.
