Your path to university:

Foundation Certificate at UWE Bristol’s International College

Undergraduate degree Year 1

Undergraduate degree Year 2

Undergraduate degree Year 3

Graduate with a UWE Bristol degree

International Year One at UWE Bristol’s International College

Key:
B: Foundation Certificate for Business, Law and Social Sciences
S: Foundation Certificate for Science and Engineering

Building and Architecture
BSc (Hons) Architectural Technology and Design
BSc (Hons) Architecture
BEng (Hons) Architecture and Environmental Engineering
BA (Hons) Architecture and Planning
BSc (Hons) Building Surveying
BSc (Hons) Construction Project Management
BA (Hons) Interior Architecture
BSc (Hons) Property Development and Planning
BSc (Hons) Quantity Surveying and Commercial Management
BA (Hons) Real Estate
BA (Hons) Urban Planning

Business and Finance
BSc (Hons) Accounting
BA (Hons) Accounting and Finance
BA (Hons) Accounting and Management
BA (Hons) Banking and Finance
BA (Hons) Business and Events Management
BA (Hons) Business and Human Resource Management
BA (Hons) Business and Law
BA (Hons) Business and Management
BA (Hons) Business Management and Economics
BA (Hons) Business Management and Leadership
BA (Hons) Business Management with Law
BA (Hons) Business Management with Marketing
BA (Hons) International Business

Computing
BSc (Hons) Business Computing
BSc (Hons) Computer Science
BSc (Hons) Cyber Security and Digital Forensics
BSc (Hons) Games Technology
BSc (Hons) Information Technology Management for Business
BSc (Hons) Product Design Technology
BEng (Hons) Robotics
BSc (Hons) Software Engineering for Business

Education
BA (Hons) Early Childhood

Engineering
BEng (Hons) Aerospace Engineering
BEng Aerospace Engineering with Pilot Studies
BEng (Hons) Automotive Engineering
BEng Automotive Engineering
BEng (Hons) Civil Engineering
BEng (Hons) Cost Engineering
BEng (Hons) Electronic Engineering
BEng (Hons) Mechanical Engineering

Environment and Agriculture
BA (Hons) Natural Science
MSc Environmental Science
BA (Hons) Geography
BA (Hons) Geology
BA (Hons) Geology and Planning
BA (Hons) Wildlife Ecology and Conservation Science

Law
LLB (Hons) Commercial Law
LLB (Hons) Criminality and Law
LLB (Hons) European and International Law
LLB (Hons) Law
LLB Law with Business

Marketing and Media
BA (Hons) Creative and Professional Writing
BSc (Hons) Digital Media
BA (Hons) Film Studies
BA (Hons) Marketing
BA (Hons) Media Communications
BA (Hons) Media Production

Mathematics
BSc (Hons) Mathematics

Music and Performing Arts
BSc (Hons) Audio and Music Technology

Notes

---

Footnotes:

1: 4-year course
Common modules taken by all students:
- English for Academic Purposes
- Extended Project

You will also take 3 of the following modules that fit your degree and career goals:
- Contemporary Global Issues
- Entrepreneurship
- Mathematics
- People, Culture and Society
- Statistics

Personal development activities: during your course, you’ll also have activities to build practical, digital and employability skills.
Learn more about modules: you’ll find module summaries later in this booklet.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus up to 2 of these modules:
- Digital Applications
- Preparatory Mathematics
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5: you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Health Science students: for entry to this Foundation Certificate, students will require an IELTS score in all skills that is equal to the overall IELTS requirement. For example, a course listed as requiring 5.5 overall with no less than 4.5 in any skill will be ‘5.5 overall with no less than 5.5 in any skill’ for students aiming to progress to a Health Sciences degree.

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/uwe-bristol/ug-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

Common modules taken by all students:
- English for Academic Purposes
- Extended Project

You will also take 2 to 3 of the following modules that fit your degree and career goals:
- Biology
- Chemistry
- Entrepreneurship
- Intermediate Mathematics
- Mathematics
- People, Culture and Society
- Physics
- Statistics

Personal development activities: during your course, you’ll also have activities to build practical, digital and employability skills. Learn more about modules: you’ll find module summaries later in this booklet.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
- Critical Reading, Writing and Reasoning for Higher Education
- Independent and Collaborative Study

Plus up to 2 of these modules:
- Digital Applications
- Preparatory Mathematics
- Preparatory Statistics
- UK Society and Culture

Students with less than UKVI IELTS 5.5: you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

Students with UKVI IELTS 4.0 will typically take:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

---

1 For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
UWE Bristol’s International College

UWE Bristol's International College

International Year One in Engineering

Common modules taken by all students:
- English for Academic Purposes
- Mathematics for Engineers 1

If you’re taking the Aerospace, Automotive and Materials pathway, you’ll also study:
- Design, Manufacture and Materials
- Fluid Mechanics
- Mathematics for Engineers 2
- Mechanical Stress and Dynamics
- Thermodynamics

If you’re taking the Civil Engineering pathway, you’ll also study:
- Civil Engineering Field Study
- Civil Engineering Technology and Drawing
- Design, Manufacture and Materials
- Mechanical Stress and Dynamics
- Surveying and GIS

If you’re taking the Electronic Engineering pathway, you’ll also study:
- Digital Electronic Systems
- Electrical and Electronic Engineering Principles 1
- Electrical and Electronic Engineering Principles 2
- Mathematics for Engineers 2
- Programming

Personal development activities: during your course, you’ll also have activities to build practical, digital and employability skills.

Biology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Law
Learn about the legal principles that affect modern businesses, including contract law and company law.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Civil Engineering Field Study
Learn about Civil Engineering methodologies and gain field skills, as well as the ability to analyse place-specific information.

Civil Engineering Technology and Drawing
Explore key elements of Civil Engineering technology and systems, and develop your skills in sketching and in drawing.

Computer Architecture
You’ll gain an understanding of the properties, functions and operations of a simple processing unit and its related digital logic sub-systems.

Contemporary Global Issues
To provide you with an introductory overview of key 21st century global issues and events and encourage you to critically evaluate their impact.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments yourself.

Database Design and Implementation
The module will introduce you to the key principles and stages involved in designing a database.

Design, Manufacture and Materials
Explore various methods, tools, manufacturing techniques and materials, and develop practical workshop skills.

Digital Applications
Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

Digital Electronic Systems
Learn about digital design methods and systems, and how they function alongside engineering principles.

Digital Evidence
The module will introduce you to the key tools and techniques used for investigating computer crime.

Economics
Gain an understanding of macro and micro economics, and explore current trends and issues in the field.

Electrical and Electronic Engineering Principles 1
Explore electronic component and circuit design, as well as the fundamental principles of electrical and electromagnetic signals.

Electrical and Electronic Engineering Principles 2
Gain a better understanding of magnetic and electromagnetic systems, as well as important skills required for electrical and electronic engineering.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship
Familiarise yourself with concepts of creativity, entrepreneurship and innovation, and learn how to apply them in business.

Entrepreneurship and Business Development
Develop your practical business skills through team-based business planning, and by exploring the concepts of enterprise and entrepreneurship.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a project topic that matches your degree and career goals, and personal interests.

Financial Institutions and Markets
You’ll develop an understanding of financial systems and the role of commercial banking in a developed economy.

Financial Reporting
Discover how to interpret financial statements and explore the role of IT in processing financial data.

Fluid Mechanics
Explore the principles of fluid dynamics, including pressure, density, mass flow rates and Bernoulli’s equation.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Intermediate Mathematics
Expand your knowledge of various mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Management Accounting
Discover how to interpret financial statements and explore the role of IT in processing financial data.

Mechanical Stress and Dynamics
Explore stress and strain, shear force and bending, Newton’s laws of motion and force.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of areas such as astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Statistics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Principles of Computing
This module will introduce you to the fundamentals of computing, looking at both software and hardware, in computer systems.

Programming
Learn the basics of programming, engineering principles in the software industry, and how to use software systems to solve engineering problems.

Quantitative Methods for Business
Discover quantitative techniques, and gain analytical and evaluation skills.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.
Notes

Thermodynamics
Analyse combustion-powered gas and steam power plants, and explore thermodynamic principles.

UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

Web Programming
This module will introduce you to the World Wide Web, Web Programming & Development and the technology surrounding it.

Personal development activities (all courses)
Culture and activities
We’ll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Digital and employability skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social network
Forming a strong social network can be very beneficial, even if it’s just to discuss and debate ideas. Not only will you get to know your classmates, you’ll also have opportunities to join professional bodies, and network with students and industry professionals; something that can be really helpful when you go on to start your career.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you’ll need to succeed at university, such as research methods and using and citing sources.

Surveying and GIS
Gain an understanding of data visualisation and effective cartography, as well as GIS data structures, level surveying and more.

Thermodynamics
Analyse combustion-powered gas and steam power plants, and explore thermodynamic principles.

UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

1 For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Advanced Statistics
Critique research data and apply standard statistical tools for the analysis of research quality.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practice applying your subject knowledge and study skills.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Research Project
Plan, execute and report a comprehensive research project. You can choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore key concepts of strategic management and evaluate their impact on businesses and their operations.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you’ll need to succeed at university, such as research methods and using and citing sources.

Personal development activities (all courses)
Culture and activities
We will help you to have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts, hobbies and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Digital and employability skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social network
Forming a strong social network can be very beneficial, even if it’s just to discuss and debate ideas. Not only will you get to know your classmates, you’ll also have opportunities to join professional bodies, and network with students and industry professionals; something that can be really helpful when you go on to start a career.
International College

This publication has been drafted in advance of the academic year to which it applies. Every effort has been made to ensure that the information is accurate at the time of publishing, but changes (for example to course content) are likely to occur given the interval between publishing and commencement of the course. It is therefore very important to check the website or contact us for any updates before you apply. Once you have applied, any change which impacts the terms and conditions of your offer or a significant part of your programme will be communicated to you.

University of West England, Bristol's International College is operated by Kaplan UWE Limited (Company number: 08102562).
Registered office address: Palace House, 3 Cathedral Street, London SE1 9DE, United Kingdom.
