Undergraduate module summaries

Your path to university:

Foundation Certificate at UWE Bristol’s International College

Undergraduate degree Year 1

Undergraduate degree Year 2

Graduate with a UWE Bristol degree

Undergraduate degree Year 3

Engineering
- BEng (Hons) Aerospace Engineering
- BEng (Hons) Aerospace Engineering with Pilot Studies
- BEng (Hons) Automotive Engineering
- BEng (Hons) Automotive Engineering

Building and Architecture
- BSc (Hons) Architectural Technology and Design
- BSc (Hons) Architecture
- BEng (Hons) Architecture and Environmental Engineering
- BA (Hons) Architecture and Planning
- BSc (Hons) Building Surveying
- BSc (Hons) Construction Project Management
- BA (Hons) Interior Architecture
- BSc (Hons) Property Development and Planning
- BSc (Hons) Quantity Surveying and Commercial Management
- BA (Hons) Real Estate
- BA (Hons) Urban Planning

Business and Finance
- BSc (Hons) Accounting
- BA (Hons) Accounting and Finance
- BA (Hons) Accounting and Management
- BA (Hons) Banking and Finance
- BA (Hons) Business and Events Management
- BA (Hons) Business and Human Resource Management
- BA (Hons) Business and Law
- BA (Hons) Business and Management
- BA (Hons) Business and Management and Economics
- BA (Hons) Business Management and Leadership
- BA (Hons) Business Management with Law
- BA (Hons) Business Management with Marketing
- BA (Hons) International Business

Computing
- BSc (Hons) Business Computing
- BSc (Hons) Computer Science
- BSc (Hons) Cyber Security and Digital Forensics
- BSc (Hons) Games Technology
- BSc (Hons) Information Technology Management for Business
- BSc (Hons) Product Design Technology
- BEng (Hons) Robotics
- BSc (Hons) Software Engineering for Business

Education
- BA (Hons) Early Childhood

Environment and Agriculture
- MSci Environmental Science
- BA (Hons) Geography
- BA (Hons) Geography
- BA (Hons) Wildlife Ecology and Conservation Science
- BA (Hons) Wildlife Ecology and Conservation Science

key:
B: Foundation Certificate for Business, Law and Social Sciences
S: Foundation Certificate for Science and Engineering
B1: International Year One in Business
C1: International Year One in Computing
E1: International Year One in Engineering

Law
- LLB (Hons) Commercial Law
- BA (Hons) Criminality and Law
- LLB (Hons) European and International Law
- LLB (Hons) Law
- LLB Law with Business

Marketing and Media
- BA (Hons) Creative and Professional Writing
- BSc (Hons) Digital Media
- BA (Hons) Film Studies
- BA (Hons) Marketing
- BA (Hons) Media Communications
- BA (Hons) Media Production

Mathematics
- BSc (Hons) Mathematics

Music and Performing Arts
- BSc (Hons) Audio and Music Technology

Key:
B: Foundation Certificate for Business, Law and Social Sciences
S: Foundation Certificate for Science and Engineering
B1: International Year One in Business
C1: International Year One in Computing
E1: International Year One in Engineering

### Science and Health
- BSc (Hons) Biological Sciences
- MSci Biological Sciences
- BSc (Hons) Botanical Science
- MSci Biomedical Sciences
- BSc (Hons) Diagnostic Radiography
- BSc (Hons) Forensic Science
- MSci Forensic Science
- BSc (Hons) Midwifery
- BSc (Hons)/Nursing (Adult Nursing)
- BSc (Hons) Occupational Therapy
- BSc (Hons) Optometry
- BSc (Hons) Paramedic Science
- BSc (Hons) Physiotherapy
- BSc (Hons) Radiography and Imaging
- BSc (Hons) Sport Rehabilitation

### Social Science and Humanities
- BA (Hons) Criminology
- BA (Hons) Criminology and Sociology
- BA (Hons) Criminology with Psychology
- BA (Hons) Economics
- BSc (Hons) Economics
- BA (Hons) English and History
- BA (Hons) English Language and Linguistics
- BA (Hons) English Literature
- BA (Hons) English Literature with Writing
- BA (Hons) History
- BA (Hons) Politics and International Relations
- BSc (Hons) Psychology
- BSc (Hons) Psychology with Criminology
- BA (Hons) Sociology
- BA (Hons) Sociology with Psychology

---

Footnotes:
1. 4-year course
Common modules taken by all students:
› English for Academic Purposes
› Extended Project

You will also take 3 of the following modules that fit your degree and career goals†:
› Contemporary Global Issues
› Entrepreneurship
› Mathematics
› People, Culture and Society
› Statistics

Personal development activities: during your course, you’ll also have activities to build practical, digital and employability skills. Learn more about modules: you’ll find module summaries later in this booklet.

Extra support: for courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:
› Critical Reading, Writing and Reasoning for Higher Education
› Independent and Collaborative Study

Plus up to 2 of these modules:
› Digital Applications
› Preparatory Mathematics
› Preparatory Statistics
› UK Society and Culture

Students with less than UKVI IELTS 5.5: you will typically study Extended English and Skills modules to improve your English language level and academic skills.

Students with UKVI IELTS 4.5 or 5.0 will typically take:
› English for Academic Study 3 + English for Academic Study 3
› Independent and Collaborative Study
› Reading and Writing 3
› Speaking and Listening 3

Students with UKVI IELTS 4.0 will typically take:
› English for Academic Study 2 + English for Academic Study 3
› Independent and Collaborative Study
› Reading and Writing 2 + Reading and Writing 3
› Speaking and Listening 2 + Speaking and Listening 3
› Study Skills Preparation

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at: kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed high school at the required level. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder: kaplanpathways.com/uwe-bristol/ug-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals. This flexibility means that you can follow your path to university, your way.

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.

Your International Year One options for degree entry in September 2022

5.5 overall with no less than 5.0 in any skill
- 2 terms: £13,800
  - Course start: September 2021
  - Course end: June 2022
  - 2 terms of IYO modules followed by an integrated 1-term virtual internship

5.5 overall with no less than 5.0 in any skill
- 3 terms: £14,970
  - Course start: September 2021
  - Course end: August 2022
  - 0.5 terms of modules from Enhancement and Extended English and Skills options

5.0 overall with no less than 4.5 in any skill
- 2.5 terms: £14,970
  - Course start: October 2021
  - Course end: August 2022
  - 0.5 terms of modules from Enhancement and Extended English and Skills options

4.5 overall with no less than 4.0 in any skill
- 3 terms: £14,970
  - Course start: September 2021
  - Course end: August 2022
  - 1 term of modules from Enhancement and Extended English and Skills options

Your International Year One options for degree entry in September 2023

5.0 overall with no less than 4.5 in any skill
- 2.5 terms: £14,970
  - Course start: July 2022
  - Course end: June 2023
  - 0.5 terms of modules from Enhancement and Extended English and Skills options

4.5 overall with no less than 4.0 in any skill
- 3 terms: £14,970
  - Course start: June 2022
  - Course end: June 2023
  - 1 term of modules from Enhancement and Extended English and Skills options

4.5 overall with no less than 4.0 in any skill
- 3.5 terms: £17,465
  - Course start: July 2022
  - Course end: August 2023
  - 0.5 or 1 term(s) of modules from Enhancement and Extended English and Skills options, plus an integrated 1-term virtual internship

4.0 overall with no less than 4.0 in any skill
- 4 terms: £20,340
  - Course start: June 2022
  - Course end: August 2023
  - 15 terms of Extended English and Skills modules

Extra support: for most courses of over 2 terms, you will take additional modules from a selection of Enhancement and Extended English and Skills options (depending mainly on your IELTS score) before the modules to the left.

Students with at least UKVI IELTS 5.5: you can study a 2.5 or 3-term course that typically includes Enhancement modules to maximise your university preparation:

Your International Year One options for degree entry in September 2022

If you're taking the Aerospace, Automotive and Materials pathway†, you'll also study:
- Aircraft Structures and Dynamics
- Materials Science
- Thermodynamics

If you're taking the Civil Engineering pathway†, you'll also study:
- Civil Engineering Field Study
- Civil Engineering Technology and Drawing
- Design, Manufacture and Materials
- Engineering Hydrology†
- Mechanical Stress and Dynamics
- Surveying and Geographical Information Systems (GIS)†

If you're taking the Electronic Engineering pathway†, you'll also study:
- Digital Electronic Systems
- Electronic and Electrical Engineering Principles 1
- Electrical and Electronic Engineering Principles 2
- Mathematics for Engineers 2
- Programming

† For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Artificial Intelligence
You’ll gain an understanding of the basic concepts, processes and uses of AI as well as design and implement a variety of learning systems.

Biotechnology
Gain an understanding of biological systems and organisms, as well as key laboratory processes.

Business Law
Learn about the legal principles that affect modern businesses, including contract law and company law.

Chemistry
Gain an understanding of chemical reactions, fundamental particles and the periodic table.

Civil Engineering Field Study
Learn about Civil Engineering methodologies and gain field skills, as well as the ability to analyse place-specific information.

Civil Engineering Technology and Drawing
Explore key elements of Civil Engineering technology and systems, and develop your skills in sketching and in drawing.

Computer Architecture
You’ll gain an understanding of the properties, functions and operations of a simple processing unit and its related digital logic sub-systems.

Contemporary Global Issues
Providing you with an introductory overview of key 21st century global issues and events and encourage you to critically evaluate their impact.

Critical Reading, Writing and Reasoning for Higher Education
Enhance your ability to read and understand complex ideas in English, and to compose convincing written arguments yourself.

Database Design and Implementation
The module will introduce you to the key principles and stages involved in designing a database.

Design, Manufacture and Materials
Explore various methods, tools, manufacturing techniques and materials, and develop practical workshop skills.

Digital Applications
Develop your digital skillset, helping you use digital tools to support academic study, including using and citing digital sources.

Digital Electronic Systems
Learn about digital design methods and systems, and how they function alongside engineering principles.

Digital Evidence
Introducing you to the key tools and techniques used for investigating computer crime.

Economics
Gain an understanding of macro and micro economics, and explore current trends and issues in the field.

Electrical and Electronic Engineering Principles 1
Explore electronic component and circuit design, as well as the fundamental principles of electrical and electromagnetic signals.

Electrical and Electronic Engineering Principles 2
Gain a better understanding of magnetic and electromagnetic systems, as well as important skills required for electrical and electronic engineering.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Entrepreneurship
Familiarise yourself with concepts of creativity, entrepreneurship and innovation, and learn how to apply them in business.

Entrepreneurship and Business Development
Develop your practical business skills through team-based business planning, and by exploring the concepts of enterprise and entrepreneurship.

Extended Project
Learn how to plan, carry out and report an extended project. You can choose a project topic that matches your degree and career goals, and personal interests.

Financial Institutions and Markets
You’ll develop an understanding of financial systems and the role of commercial banking in a developed economy.

Financial Reporting
Discover how to interpret financial statements and explore the role of IT in processing financial data.

Fluid Mechanics
Explore the principles of fluid dynamics, including pressure, density, mass flow rates and Bernoulli’s equation.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Intermediate Mathematics
Expand your knowledge of various mathematical concepts including algebra, geometry, problem-solving, trigonometry and vectors.

Management Accounting
Find out about the role of financial management in different organisations, and techniques for financial decision-making.

Mathematics
Develop your mathematical skill set in areas such as algebra, decision maths, probabilities and statistics.

Mathematics for Engineers 1
Gain a better understanding of algebra, modelling techniques and many of the other mathematical methods that are needed in engineering.

Mathematics for Engineers 2
Expand your knowledge of calculus, differentiation, integration and differential equations, as well as mathematical methods of engineering.

Mechanical Stress and Dynamics
Explore stress and strain, shear force and bending, Newton’s laws of motion and more.

People, Culture and Society
Learn about the history, theories and issues that relate to human culture and society around the world.

Physics
Gain an understanding of areas such as astrophysics, electromagnetism, mechanics and thermodynamics.

Preparatory Mathematics
Develop your numeracy skills, including algebra, geometry and graphs.

Preparatory Statistics
Build on your knowledge of using statistics, including the use of data to illustrate facts and support theories.

Principles of Computing
This module will introduce you to the fundamentals of computing, looking at both software and hardware, in computer systems.

Programming
Learn the basics of programming, engineering principles in the software industry, and how to use software systems to solve engineering problems.

Programming C/C++
This module introduces you to the language of programming C++ used by professional programmers. Using theoretical concepts to analyse real-world practices.

Quantitative Methods for Business
Discover quantitative techniques, and gain analytical and evaluation skills.

Reading and Writing 2
Develop your English reading and writing so that you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.
Statistics
Learn basic algebra, as well as the skills needed to analyse and apply statistics in a range of ways.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you’ll need to succeed at university, such as research methods and using and citing sources.

Surveying and GIS
Gain an understanding of data visualisation and effective cartography, as well as GIS data structures, level surveying and more.

Thermodynamics
Analyse combustion-powered gas and steam power plants, and explore thermodynamic principles.

UK Society and Culture
Learn more about the culture and society of the UK, and how it differs from others.

Web Programming
This module will introduce you the World Wide Web, Web Programming & Development and the technology surrounding it.

Online internship
You’ll take an online work placement as your final term if you study the International Year One with Internship.

The internship is offered in partnership with Virtual Internships, a leading education company in the field. This gives you the chance to gain valuable work experience at one of 3,500+ companies around the world.

You will be assigned one of 18 career fields on your course, based on your chosen progression degree. This will all help you develop important skills, practise your English and give you some great experience to add to your CV.

Find out more on our website: kaplanpathways.com/internship-iyo

Personal development activities (all courses)

Culture and activities
We’ll help you have a hugely beneficial cultural and social experience, and encourage you to explore different activities, sports, crafts and more. You might learn about local history and culture, or develop your wider subject knowledge and understanding of related industries.

Employability and digital skills
Outside of your academic learning, you’ll also be taught skills that will be useful at university and later in life. You’ll receive help in making the most of your creativity, improving your communication and developing your digital skills. We’ll also help you build a CV, portfolio and online profile to empower you after you graduate.

Social networking
Forming a strong social network can be very beneficial, even if it’s just to discuss and debate ideas. Not only will you get to know your classmates, you’ll also have opportunities to join professional bodies, and network with students and industry professionals: something that can be really helpful when you go on to start your career.
Choose your postgraduate degree

Available degree options may change over time, so visit our online Degree Finder for the most up-to-date list:
› kaplanpathways.com/uwe-bristol/pg-degrees

Key:
B: Pre-Master’s for Business, Law and Social Sciences
S: Pre-Master’s for Science and Engineering

Building and Architecture
- MSc Construction Project Management
- MSc Quantity Surveying
- MSc Real Estate Management
- MSc Urban Planning

Business and Finance
- MSc Accounting and Finance
- MSc Business Management
- MSc Engineering Management
- MSc Finance
- MSc Financial Technology (FinTech)
- MSc International Management
- MBA Master of Business Administration
- MSc Risk Management and Insurance

Computing
- MSc Cyber Security
- MSc Information Technology

Environment and Agriculture
- MSc Environmental Consultancy
- MSc Environmental Management

Hospitality and Tourism
- MSc Events Management

Law
- LLM Commercial Law
- LLM Environmental Law and Sustainable Development
- LLM International Banking and Finance Law
- LLM International Law
- LLM International Trade and Economic Law

Marketing and Media
- MSc Marketing
- MSc Marketing Communications
- MSc Science Communication

Science and Health
- MSc Biomedical Science
- MSc Environmental Health
- MSc Public Health

Social Science and Humanities
- MSc Health Psychology
- MSc Sustainable Development in Practice
- MSc Transport Engineering and Planning
Common modules taken by all students:
- Advanced Statistics
- English for Academic Purposes
- Research Project

You will also take 1 of the following modules to prepare for postgraduate study:
- Project Management
- Strategic Management

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Learn more about modules: you'll find module summaries later in this booklet.

Extra support: for courses of over 2 terms, you will also take Extended English and Skills modules before the modules to the left.

Students with UKVI IELTS 5.0 will typically take these additional modules as part of a 2.5 or 3-term course:
- English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 3
- Speaking and Listening 3

Students with UKVI IELTS 4.5 will typically take these additional modules as part of a 3.5 or 4-term course:
- English for Academic Study 2 + English for Academic Study 3
- Independent and Collaborative Study
- Reading and Writing 2 + Reading and Writing 3
- Speaking and Listening 2 + Speaking and Listening 3
- Study Skills Preparation

Minimum English level: UKVI IELTS score*

* UKVI IELTS alternatives: we can accept alternative tests as proof of English language. Learn more at kaplanpathways.com/uk/ielts/

Academic entry requirements: for all course options above, you need to have completed at least 3 years of higher education in a suitable subject. For requirements specific to your country, select your preferred degree and pathway course from our online Degree Finder:
kaplanpathways.com/uwe-bristol/pg-degrees

Your course length: this is influenced by your English language score that you submit as part of the admissions process. Soon after your course starts, we’ll check your English and academic level again to make sure you’re on the most suitable study plan, with modules that best fit your skills and goals.

This flexibility means that you can follow your path to university, your way.

1 For some degrees, the University will require you to take particular modules. Details are on the online Degree Finder and will be in your offer letter.
Common modules taken by all students:
- Advanced Statistics
- English for Academic Purposes
- Research Project

You will also take 1 of the following modules to prepare for postgraduate study†:
- Project Management
- Strategic Management

Personal development activities: during your course, you'll also have activities to build practical, digital and employability skills.

Advanced Statistics
Critique research data and apply standard statistical tools for the analysis of research quality.

English for Academic Purposes
Develop your English to the level you need for university study, and to really get involved in academic discussions.

English for Academic Study 2
Improve your English grammar and vocabulary in order to communicate in an academic environment.

English for Academic Study 3
Expand your knowledge of English grammar and vocabulary to the level required for degree study.

Independent and Collaborative Study
Work individually and in teams on an academic task, and practise applying your subject knowledge and study skills.

Project Management
Gain key skills in project management, and apply your knowledge to a project.

Reading and Writing 2
Develop your English reading and writing so you can understand and articulate ideas and reasoning.

Reading and Writing 3
Develop your English reading and writing skills to a sufficient level to communicate complex ideas.

Research Project
Plan, execute and report a comprehensive research project. You can choose a research topic based on your degree and career goals, and personal interests.

Speaking and Listening 2
Practise listening and speaking so that you are better prepared for academic debate and discussion.

Speaking and Listening 3
Improve your ability to listen and speak in English, allowing you to fully engage with academic topics.

Strategic Management
Explore key concepts of strategic management and evaluate their impact on businesses and their operations.

Study Skills Preparation
Gain an introduction to the wide range of skills and strategies you'll need to succeed at university, such as research methods and using and citing sources.
