Find your route to ASU

We will guide you to your best option, whether you're ready to start an ASU degree immediately, or need extra preparation first.

Can I enter a degree directly?

Yes, if you meet all the academic and English requirements, we can help you apply for direct admission to an ASU bachelor's or master's degree. Our education advisors are experts in the University's admission process and will provide valuable support during your application.

What is transfer admission?

You can apply for transfer admission into Year 2 or 3 of a bachelor's degree if you have already studied at another university or college. Your existing undergraduate credit is evaluated for acceptance by ASU: you'll find out how many credits will transfer with your offer of admission. When you complete your bachelor's degree, it is awarded by ASU.

What is conditional admission?

If you meet all entry requirements for your preferred degree except the English level, you may be conditionally accepted to ASU. Students with conditional admission can join ASU's Intensive English or Graduate Preparation programs to help build the skills needed to be successful at an American university, or can later submit a qualifying English test score.

What is ASU-USA Pathways?

Taught on ASU's West campus, the program lets you start undergraduate studies at ASU while you raise your English proficiency and academic grades. Choose from 3 pathways: **Business, Global Management** or **Arts and Sciences**. You'll take a combination of English language and academic courses, and receive extra support to prepare you for degree-level study. By successfully completing ASU-USA Pathways, you are guaranteed admission to select ASU majors, and will have earned credit toward your bachelor's degree.

What is the Intensive English Program?

With IEP, you study at ASU while you raise your English level to meet the requirements of your conditional admission. There are 6 IEP levels, from basic to advanced, each lasting 8 weeks. Students take a language test on arrival and are placed in the appropriate level. When you pass the required level, you can progress to your ASU degree or the Pathways program without needing to submit a TOEFL score.

What is the International Graduate Preparation Program?

With IGPP, you study at ASU's Tempe campus for 10 weeks. The program will strengthen your English proficiency to meet the requirements of your conditional admission to select master's degrees in business, finance, global management, engineering, computing and technology. When you pass IGPP, you can progress to your ASU master's degree.
